

1. Record Nr.	UNINA9910511469103321
Titolo	Atlas of gynecologic cytopathology with histopathologic correlations / / Christopher J. VandenBussche [and three others] ; contributors, Lynette Denny, Dina R. Mody, Cornelia L. Trimble
Pubbl/distr/stampa	New York : , : Demos Medical, , 2016 ©2016
ISBN	1-61705-210-8
Descrizione fisica	1 online resource (214 p.)
Disciplina	618.107582
Soggetti	Generative organs, Female - Cancer Generative organs, Female - Diseases - Diagnosis Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Cover; Title; Copyright; Contents; Contributors; Foreword; Preface; Share Atlas of Gynecologic Cytopathology: With Histopathologic Correlations; Chapter 1: Colposcopy; Chapter 2: Normal; Chapter 3: Infectious Organisms; Chapter 4: Negative for Intraepithelial Lesion and Malignancy; Chapter 5: Low-Grade Squamous Intraepithelial Lesion; Chapter 6: High-Grade Squamous Intraepithelial Lesion; Chapter 7: Atypical Squamous Cells of Uncertain Significance; Chapter 8: Squamous Cell Carcinoma; Chapter 9: Atypical Glandular Cells; Chapter 10: Adenocarcinoma Chapter 11: Metastatic and Unusual Malignancies Chapter 12: Cervical Cancer Screening and Follow-up of Limited and Abnormal Screen Results; Acceptable Cancer Risks and Basis for Recommendations; Cervical Cancer Screening Guidelines in the United States (2012); Management of Unsatisfactory Cytology Screening Result; Negative Cytology with Absent or Insufficient Endocervical or Transformation Zone Component; Atypical Squamous Cell of Undetermined Significance; Low-Grade Squamous Intraepithelial Lesion; Management for Cytologic Diagnosis of Atypical Squamous Cells, Cannot Rule Out HSIL

Sommario/riassunto

"". . ; This Atlas offers concrete diagnostic guidance for anatomic pathologists to accurately identify gynecologic tract disease using PAP tests. It not only illustrates the cytomorphology of cervical specimens, but also presents and contrasts common problem areas that can lead to erroneous interpretation. Clearly and concisely written by leaders in the field, this volume is a practical desk reference for all facets of the diagnostically challenging area of gynecological tract exfoliative cytopathology.; . . ; The Atlas features nearly 500 carefully selected high-resolution color images detailin
