

1. Record Nr.	UNINA9910511507603321
Autore	Meisels Tamar
Titolo	Territorial rights / / by Tamar Meisels
Pubbl/distr/stampa	Dordrecht, The Netherlands, : Springer, c2005
ISBN	1-281-33869-9 9786611338695 1-4020-3823-2
Edizione	[1st ed. 2005.]
Descrizione fisica	1 online resource (150 p.)
Collana	Law and philosophy library ; ; v. 72
Disciplina	341.42
Soggetti	Territory, National Jurisdiction, Territorial Self-determination, National
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [121]-138).
Nota di contenuto	Front Matter; Introduction; The Collective Nature of Territorial Entitlement; 'Historical Rights' to Land; 'Looking Forward to the Past'-an Analysis of Territorial Claims Based on Principles of Corrective Justice; 'A Land Without a People'-an Evaluation of Nations' Efficiency-based Territorial Claims; The Ethical Significance of Settlement; Global Justice and Principles of Equal Distribution; Earth-the Final Frontier; Back Matter
Sommario/riassunto	Liberal defences of nationalism, prevalent since the mid-1980's, have largely neglected the fact that nationalism is primarily about land. Territorial Rights examines the generic types of territorial claims customarily put forward by national groups as justification for their territorial demands, within the framework of what has come to be known as 'liberal nationalism'. "When it appeared in 2005, Territorial Rights filled a void in liberal nationalist theory. In this second edition, Meisels carries her subtle and systematic thinking on the topic further, in part by deftly and constructively responding to the literature that the first edition spawned." Allen Buchanan, Duke University, USA "The question of who is entitled to exercise jurisdiction over which land is of fundamental theoretical and practical importance. It has, however, been neglected by contemporary political philosophers. In her thoughtful

and stimulating work, *Territorial Rights*, Tamar Meisels provides a much needed analysis of the normative issues involved. *Territorial Rights* is a comprehensive, rigorous and illuminating analysis. It provides both an evaluation of competing philosophical perspectives and a defence of a liberal nationalist perspective on territory. In doing so it includes instructive discussions of the implications of Locke's political thought for territorial rights, and the continuing relevance of historic injustices. It would be of interest to anyone interested in questions of territorial rights (and indeed anyone interested in issues of global justice more generally)." Simon Caney, Magdalen College, Oxford, UK "Even the most cursory reading, of the burgeoning literature on global distributive justice and just war, reveals a growing appreciation of the foundational role that territorial rights must play in constructing a coherent theory of what nations owe to one another. Tamar Meisels provides us with a challenging, comprehensive, and highly original analysis of how such rights are constituted and the conditions under which they can be justified. Those, like myself, who have advanced a purely individualistic view of the basis of territorial rights, will have to do some serious grappling with her many powerful arguments if they are successfully to sustain that view." Hillel Steiner FBA, University of Manchester, UK.
