| Sommario/riassunto | The detailed study of a rare Neo-Aramaic variety from north-eastern Iraq offered by Lidia Napiorkowska in A Grammar of the Christian Neo-Aramaic Dialect of Diyana-Zariwaw is a contribution to the documentation of the endangered world of spoken Aramaic. The comparative and contact-sensitive approach of the monograph situates the dialect of Diyana-Zariwaw in a wider context of Semitic languages on the one hand, and of the local varieties of Iraqi Kurdistan on the |

other. Next to a systematic account of phonology and morphology, the book covers a range of syntactic features and is accompanied by a corpus of translated texts and a glossary, arranged according to the Aramaic, as well as English entries.
