1. Record Nr.   UNINA9910511695903321

   Titolo   Innovations in information retrieval : perspectives for theory and
                       practice / / edited by Allen Foster and Pauline Rafferty

   Pubbl/distr/stampa London : , : Facet, , 2011

   ISBN   1-85604-973-6

   Descrizione fisica 1 online resource (176 p.)

   Altri autori (Persone) FosterAllen
                           RaffertyPauline

   Disciplina   025.524

   Soggetti   Information retrieval - Technological innovations
                       Electronic books.

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   Description based upon print version of record.

   Nota di bibliografia Includes bibliographical references and index.

   Nota di contenuto   Title page; Contents; Figures and tables; Contributors; Foreword;
                       Introduction; 1 Encountering on the road to Serendip? Browsing in new
                       information environments; Introduction; Browsing; Encountering and
                       serendipity; The personal factor; Serendipity systems?; Conclusion;
                       References; 2 Classification revisited:a web of knowledge; Introduction;
                       Background; Classification, how does it work?; Classification in
                       information retrieval; Bibliographic classifications on the web 1990-
                       2010; Classification for computers; Conclusion; Acknowledgement;
                       References
                       3 Approaches to fiction retrieval research: from theory to practice?
                       Introduction; Approaches to fiction retrieval; Intertextuality and fiction
                       information retrieval; A methodological framework for a generic fiction
                       retrieval system; Conclusion; References; 4 Music information retrieval
                       research; Introduction; What is music information?; Music and its
                       organization; MIR systems; Without a listener . . .; Evaluation;
                       Conclusion; References; 5 Folksonomies, social tagging and
                       information retrieval; Introduction; The relation between knowledge
                       representation and information retrieval
                       Searching - browsing - retrievingFolksonomy-based recommender
                       systems; Tag clouds facilitate browsing; Relevance ranking;
                       Disadvantages; Conclusion; Note; References; 6 Digital information
                       interaction as semantic navigation; Introduction; Semantic navigation;

Sommario/riassunto	The advent of various information retrieval (IR) technologies and approaches to storage and retrieval provide communities with opportunities for mass documentation, digitization, and the recording of information in different forms. This book introduces and contextualizes these developments and looks at supporting research in IR.
