1.	Record Nr.	UNINA9910511729103321
	Titolo	Corpora and lexis [[e-book] /] / edited by Sebastian Hoffmann, Andrea Sand, Sabine Arndt-Lappe, Lisa Marie Dillmann
	Pubbl/distr/stampa	Leiden ; ; Boston : , : Brill, , 2018
	ISBN	90-04-36113-8
	Descrizione fisica	1 online resource (322 pages)
	Collana	Language and computers: studies in digital linguistics ; ; v. 81
	Altri autori (Persone)	HoffmannSebastian SandAndrea Arndt-LappeSabine DillmannLisa Marie
	Disciplina	420.1/88
	Soggetti	English language - Grammar - Data processing English language - Discourse analysis - Data processing - Congresses Computational linguistics Electronic books.
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Based on proceedings of the 36th ICAME Conference, held 27 to 31 May 2015, at the University of Trier.
	Nota di bibliografia	Includes bibliographical references.
	Nota di contenuto	Front Matter -- Copyright Page -- Notes on Contributors -- Introduction / Sebastian Hoffmann , Andrea Sand , Sabine Arndt-Lappe and Lisa Marie Dillmann -- Modelling Lexical Structures in the Oxford English Dictionary / Edmund Weiner -- Investigating the Circumstances of Coinage / Antoinette Renouf -- Synonym Selection as a Strategy of Stress Clash Avoidance / Julia Schlüter and Gabriele Knappe -- Intensification with Very, Really and So in Selected Varieties of English / Karin Aijmer -- The Pragmatics of Well as a Discourse Marker in Broadcast Discussions / John M. Kirk -- Between Lexis and Discourse: A Cross-register Study of Connectors of Contrast / Maïté Dupont -- Towards a Model of Co-collocation Analysis: Theory, Methodology, and Preliminary Results / Moisés Almela and Pascual Cantos -- The Lexicogrammar of Be Interested: Description and Pedagogy / Costas Gabrielatos -- Tracking L2 Writers' Phraseological Development Using Collgrams: Evidence from a Longitudinal EFL Corpus / Yves Bestgen and Sylviane Granger.

Sommario/riassunto   The contributions in this volume provide a kaleidoscope of state-of-the-art research in corpus linguistics on lexis and lexicogrammar. Central issues are the presentation of major corpus resources (both corpora and software tools), the findings (especially about frequency) which are simply not accessible without such resources, their theoretical implications relating to both lexical units and word meanings, and the practical – especially pedagogical – applications of corpus findings. This is complemented by a lexicographer's view on the data structures implicit in the Oxford English Dictionary (OED). The volume, which has sprung from the 36th ICAME conference, held in at Trier University in May 2015, will be of relevance for theoretical and applied linguists interested in corpora, word usage, and the mental lexicon.
