

1. Record Nr.	UNINA9910511890303321
Autore	Jacquette Dale
Titolo	The Bloomsbury companion to the philosophy of consciousness // edited by Dale Jacquette
Pubbl/distr/stampa	London : , : Bloomsbury Publishing, , 2019
ISBN	1-4742-2904-2 1-4742-2903-4 1-4742-2902-6
Descrizione fisica	1 online resource (x, 486 pages)
Collana	Bloomsbury Companions
Disciplina	128/.2
Soggetti	Consciousness Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 413-436) and index.
Nota di contenuto	Part 1. Historical development -- Part 2. Groundbreaking concepts of consciousness -- Part 3. Metaphilosophy of consciousness studies -- Part 4. Mental causation, natural law and intentionality of conscious states -- Part 5. Resources.
Sommario/riassunto	"From Descartes and Cartesian mind-body dualism in the 17th century though to 21st-century concerns about artificial intelligence programming, The Bloomsbury Companion to the Philosophy of Consciousness presents a compelling history and up-to-date overview of this burgeoning subject area. Acknowledging that many of the original concepts of consciousness studies are found in writings of past thinkers, it begins with introductory overviews to the thought of Descartes through to Kant, covering Brentano's restoration of empiricism to philosophical psychology and the major figures of the late 19th and early 20th centuries: Russell, Wittgenstein, Ryle and James. These opening chapters on the forces in the history of consciousness lay the groundwork needed to understand how influential contemporary thinkers in the philosophy of mind interpret the concept of consciousness. Featuring leading figures in the field, Part II discusses current issues in a range of topics progressing from the so-called hard problem of understanding the nature of

consciousness, to the methodology of invoking the possibility of philosophical zombies and the prospects of reductivism in philosophy of mind. Part III is dedicated to new research directions in the philosophy of consciousness, including chapters on experiment objections to functionalism and the scope and limits of artificial intelligence. Equipped with practical research resources including an annotated bibliography, a research guide and a glossary, The Bloomsbury Companion to the Philosophy of Consciousness is an authoritative guide for studying the past, present and future of consciousness."--Bloomsbury Publishing.
