Descrizione fisica	1 online resource (242 pages)
Disciplina	370
Soggetti	Education
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The book outlines education under the auspices of digitization. Transformation processes are highlighted which, triggered by binary technologies, reach deep into everyday cultures and worldviews in our societies. These challenge the basis for knowledge and education. What does this mean for knowledge today? Which role does it play under these circumstances? And what can and should education be now? For this purpose, the educational theory debate is questioned from a media studies point of view.
