

1. Record Nr.	UNINA9910513707703321
Titolo	Revista Brasileira de Cirurgia Cardiovascular : orgao oficial da Sociedade Brasileira de Cirurgia Cardiovascular / / Sociedade Brasileira de Cirurgia Cardiovascular
Pubbl/distr/stampa	Sao Paulo : , : Sociedade Brasileira de Cirurgia Cardiovascular, , 1986-2015
Descrizione fisica	1 online resource
Disciplina	612.1
Soggetti	Cardiovascular system Heart - Surgery
Lingua di pubblicazione	Portoghese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Nota di contenuto	The scientific article and the good science -- There is one more thing to be done: ECMO! -- Post-cardiotomy ECMO in pediatric and congenital heart surgery: impact of team training and equipment in the results -- Oxidative stress in coronary artery bypass surgery -- Transcatheter aortic valve implantation with balloonexpandable valve: early experience from China -- Comparison of two technics of cardiopulmonary bypass (conventional and mini CPB) in the trans-and postoperative periods of cardiac surgery -- Relationship between pre-extubation positive endexpiratory pressure and oxygenation after coronary artery bypass grafting -- Evaluation of the influence of pulmonary hypertension in ultra-fast-track anesthesia technique in adult patients undergoing cardiac surgery -- Effects of intraoperative diltiazem infusion on flow changes in arterial and venous grafts in coronary artery bypass graft surgery -- Effect of using pump on postoperative pleural effusion in the patients that underwent CABG -- Short-term inspiratory muscle training potentiates the benefits of aerobic and resistance training in patients undergoing CABG in phase II cardiac rehabilitation program -- Cardiopulmonary bypass increases the risk of vasoplegic syndrome after coronary artery bypass grafting in patients with dialysis-dependent chronic renal failure -- Sternal wound tuberculosis following cardiac operations: a review -- Aortic rupture

during reoperative bariatric surgery -- Off-pump bidirectional Glenn through right anterior thoracotomy -- Pediculated myxoma from atrial septum invading atria and biventricular inlets -- Relationship between pre-extubation positive endexpiratory pressure and oxygenation after coronary artery bypass grafting -- Key points of reducing neurologic complications in frozen elephant trunk technique -- Answer to "Key points of reducing neurologic complications in frozen elephant trunk technique".
