Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Modern European Merger Control Policy is the result of a compelling evolution as, throughout the course of time, the underlying objectives guiding its enforcement have been influenced by different school of thoughts, decisions of the bodies supervising the competition, Commission at EU level and national authorities at the state level, and, of course, the economic evolution of the continent. As a consequence, the European institutions together with the Member States had to amend the initial provisions from the Treaty and, later, from the specific Regulation. This book aims at studying the evolution of the European Merger Control rules, from the founding treaties till the last European act providing it, in parallel, analysing the caselaw in the field and its influence in the reformation process. The final Reform of the European Merger Control was implemented in 2004, as a consequence of globalization and rapid developments of the markets, including the digital economy, as some amendments were essential for a competitive and innovative European single market, leaving us with a amended procedure which is presented in the present book.
