

1. Record Nr.	UNINA9910522916303321
Titolo	Difficult Decisions in Surgical Ethics : An Evidence-Based Approach // edited by Vassyl A. Lonchyna, Peggy Kelley, Peter Angelos
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	3-030-84625-3
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (724 pages)
Collana	Difficult Decisions in Surgery: An Evidence-Based Approach, , 2198-7769
Disciplina	174.2 617
Soggetti	Surgery Medical ethics Palliative treatment Medical Ethics Palliative Care Cirurgians Ètica professional Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface -- In the Beginning -- Importance of Formal Education in Medical Ethics in the XXIst Century -- What Makes Surgical Ethics Unique? -- Notable Ethical Sugeons -- Communication -- Transparency in Surgery -- Is Informed Consent Truly Informed? And Does It Matter? -- Shared Decision Making. "What would you do in my case, Doctor?" -- Obtaining Surgical Consent Under Duress. When Not to Operate? -- Goals of Care Discussions in High Risk Surgery. -- When Surgeons and Patients Disagree -- How to Deliver Bad News. A Family Post-mortem -- Surgical Empathy. - Surgical Education -- Teaching Surgical Ethics -- Training Residents: Disclosure to Patients, Communication During Awake Surgery -- Informed Consent of Patients Regarding Trainee Participation -- Can Professionalism be Taught During Residency? -- Autonomy In Residency: the Dual Role of the

Academic Surgeon -- Medical Discrepancy/ Medical Error --
Concurrent Operations in Different ORs -- Disclosure of Surgical Errors
-- Expert Witness Testifying Against Colleagues -- Cultural / Religious
Diversity -- Acceptance of Refusal of Surgery due to Religious or
Cultural Reasons -- Is it Inappropriate to use the Word "Death" when
obtaining Surgical Consent? -- Bloodless Surgical Strategy for Jehovah's
Witness Patients -- Surgery on the Incarcerated Patient -- Surgical
Dilemmas in the Adult Patient -- Surgical Buy-in for Major Surgical
Procedures -- Ethics of Caesarian Delivery on Maternal Request (CDMR)
-- Fertility Sparing Surgery Instead of Definitive Cancer Resections --
Ethical Decision-Making in Treatment of Aortic Aneurysms, Elective or
Emergent (Ruptured) -- Denial of Mechanical Assist
Devices/Transplantation Due to Disability, Economics or Social Status
-- Surgical Dilemmas in the Pediatric Patient / Family -- Changing
Landscape of Surgical Ethics -- Management of Fatal Diseases in the
Neonate -- Destination ECMO in the Pediatric Patient. (Pro/Con) --
ECMO as a Terminal Event -- Brain death in NICU/PICU -- Ethics of
Fetal Interventions for Lethal Anomalies -- Critical Care -- Dealing with
Families of Patients with severe Brain Injury: Turning off Support, Organ
Donation -- Ethical Dilemma when a Mechanical Assist Device is Futile --
Burned Beyond Recognition. Ethics of Care -- Do Not Resuscitate/
Palliative Care/ End of Life -- Peri-Operative DNR: An Ethical Dilemma --
Approach to Palliative Surgery at End of Life -- Conflicts with Surrogate
Decision Makers and Goals of Care -- Global Surgery -- Medical
Missions to Developing Countries (Pro/Con) -- Rebuttal: The View From
The Lake Tanganyika Floating Clinic -- Why is No Program Training
"The Complete Surgical Missionary?" -- One Can Make a Difference in
National Health Policy. The Transplant Program in China -- Surgical
Innovation/ Research -- Ethical Questions of Surgical Trials --
Introducing New Techniques, Technology and Medical Devices --
Uterine Transplantation: More than Saving a Life.

Sommario/riassunto

This book provides a detailed guide to the ethical considerations involved when making decisions in surgery. Chapters feature a uniform format, which feature a case that represents a real-life problem, discussion of the medical indications of that issue, the latest available medical solutions, and related ethical considerations. In some cases, more in-depth debate is provided on why a particular decision should or should not be made based-upon ethical principles. Information boxes containing key statements and relevant data in clear easy-to-digest tables facilitates the reader in being able to assimilate the most important points covered in each chapter. *Difficult Decisions in Surgical Ethics: An Evidence-Based Approach* is a thorough review of ethical considerations in a range of surgical scenarios encompassing both adult and pediatric topics, training surgical residents, ethical care during a pandemic, critical care, palliative care, sensitivity to religious and ethnic mores, clinical research, and innovation. It is intended to be a vital resource for practicing and trainee surgeons seeking a comprehensive up-to-date resource on ethical topics in surgical practice. The work is part of the *Difficult Decisions in Surgery* series covering a range of surgical specialties. .
