

1. Record Nr.	UNINA9910522940403321
Autore	De la Prieta Fernando
Titolo	Methodologies and intelligent systems for technology enhanced learning, 11th International Conference // Fernando De la Prieta [and nine others]
Pubbl/distr/stampa	Cham, Switzerland : , : Springer International Publishing, , [2021] ©2021
ISBN	3-030-86618-1
Descrizione fisica	1 online resource (292 pages)
Collana	Lecture Notes in Networks and Systems ; ; v.326
Disciplina	371.33
Soggetti	Educational technology Computer-assisted instruction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Organization of MIS4TEL 2021 http://www.mis4tel-conference.net/ -- General Chair -- Technical Program Chairs -- Paper Chairs -- Proceedings Chair -- Publicity Chairs -- Workshop Chairs -- Technological Frontiers Chair -- Program Committee -- Organizing Committee -- Contents -- MAIN Track -- 3D Virtual Application as a Guidance and Facility Management Tool Applied to University Buildings -- 1 Introduction -- 2 Background -- 3 Software Development -- 4 Web Modules and Mobile Application Description -- 4.1 Guiding Function -- 4.2 Facilities Management -- 4.3 Mobile Application -- 5 Conclusions -- References -- Improved Automated Classification of Sentences in Data Science Exercises -- 1 Introduction -- 2 Related Work -- 3 Study -- 3.1 Dataset -- 3.2 Features -- 3.3 Methods -- 3.4 Results -- 3.5 Discussion -- 4 Conclusions and Future Work -- References -- What Children Learn in Smart-Thing Design at a Distance: An Exploratory Investigation -- 1 Introduction -- 2 Related Work -- 3 Design Toolkit for Workshops at a Distance -- 4 Workshop Design -- 4.1 Research Question -- 4.2 Participants and Setting -- 4.3 Protocol -- 4.4 Data Gathering -- 5 Workshop Results -- 6 Discussion -- 7 Conclusions and Future Work -- References -- Students' Attitude Towards Technology Enhanced Photovoice to Support Critical Reflection -- 1 Introduction -- 2 Theory and Related Work -- 2.1 Photovoice and

Reflection -- 2.2 Designing Social, Mobile Technologies to Support Reflection -- 3 The Mobile Application -- 4 The Study -- 4.1 The Assignment -- 4.2 The Questionnaire -- 5 Results -- 6 Discussion and Future Research -- 6.1 Design Recommendations -- 6.2 Limitations -- 7 Conclusion -- References -- Scenarios for Graph Algorithmic Thinking Co-created with Teachers -- 1 Introduction -- 2 Related Work -- 2.1 Unplugged Learning -- 2.2 Scenario-Based Learning. 3 GAT Scenarios -- 3.1 Action Research for GAT Scenarios -- 3.2 The Framework of GAT Scenarios -- 3.3 GAT Scenarios and Interventions -- 4 A Field Study with GAT Scenarios -- 4.1 Participants and Setting -- 4.2 GAT Scenarios -- 4.3 Research Question and Data Collection -- 5 Results -- 5.1 Results per Type of Exercise -- 5.2 Results per Group -- 6 Discussion and Conclusions -- References -- MONICA "On-the-Job" Technology-Enhanced Learning Environment: An Empirical Evaluation -- 1 Introduction -- 2 MONICA "On-the-Job" TEL Environment -- 3 Empirical Evaluation of MONICA Learning Model -- 4 Discussion and Conclusion -- References -- ARcode: Programming for Youngsters Through AR -- 1 Introduction -- 2 AR in Education: A Wave of Change -- 3 Related Work -- 4 Platform Design -- 4.1 Gamification Elements -- 5 Experimental Design and Testing -- 6 Results -- 7 Conclusion and Future Work -- References -- An Investigation of Dissemination and Retention of Non-verbal Information About the Cultural Heritage of Rock Art in a Virtual Reality Simulation -- 1 Introduction -- 2 Related Work -- 2.1 Learning in the Context of Serious Games and Cultural Heritage -- 2.2 Cultural Games and Situated Experiences in the Context of Virtual Reality -- 2.3 The Subject and Instructional Technology: Rock Art and Virtual Reality -- 3 Reconstructing a Prehistoric Context: Design and Implementation of a Virtual Reality Rock Art Cave -- 3.1 A Short Walkthrough of the Game -- 4 Evaluation -- 4.1 Instructional Variables and Scoring -- 4.2 Participants -- 4.3 Procedure -- 5 Discussion of Results and Conclusion -- References -- A Game-Based Approach to Manage Technostress at Work -- 1 Reduce Technostress: A Challenge of Our Time -- 1.1 Work-Related Stress and Its Consequences -- 1.2 Technology as an Emergent Source of Work-Related Stress: Technostress. 2 Using Games to Address Technostress -- 2.1 Step 1: The Needs Analysis -- 2.2 Step 2: The Digital Training Platform -- 2.3 Step 3: The Facilitator Training Course -- 2.4 Step 4: Policy Report and Recommendations -- 3 Some Preliminary Results: The Alpha Testing -- 3.1 Usability -- 3.2 Game Experience -- 3.3 Pedagogical and Competence Development Objectives -- 3.4 Final Open-Ended Question -- 4 Conclusions -- References -- Designing the Learning Analytics Cockpit - A Dashboard that Enables Interventions -- 1 Introduction -- 2 Related Work -- 3 Design Methodology -- 4 Requirements Collection -- 4.1 Methodology: Interviews -- 4.2 Results -- 5 The LA Cockpit -- 5.1 Methodology: Usability Study -- 5.2 Results -- 6 Discussion -- 7 Conclusion and Future Work -- References -- Age and Gender (Face) Recognition: A Brief Survey -- 1 Introduction -- 2 Overview of CNN Based Approaches -- 3 Approaches and Datasets -- 4 Conclusion -- References -- Deep Learning to Monitor Massive Open Online Courses Dynamics -- 1 Introduction -- 2 Related Work -- 3 The Student Model -- 4 Experimental Evaluation -- 4.1 The Experimental Settings -- 4.2 The Peer Assessment Sessions -- 4.3 Graph Embedding -- 4.4 Results and Discussion -- 5 Conclusions and Future Work -- References -- Workshop on the Gamification of the Learning Processes (GaLePro) -- Workshop on the Gamification of the Learning Processes (GaLePro) -- chPart2 -- Organization -- Organizing Committee --

Program Committee -- The Influence of Gamification in Education: Possibilities, Regulation and Concerns -- 1 Introduction -- 2 Gamification as a Tool of Education -- 2.1 Possibilities in Education Developments Using Gamification -- 2.2 Effects of Gamification on Students Skills and Academic Achievement -- 2.3 Gamification as a Connection Between Students and Their Teachers.

3 Legal Issues Raised by the Use of Gamification on Education -- 3.1 Privacy, Control, and Information Disclosure -- 3.2 Personal Information, Concerns, and Perils -- 4 Conclusion -- References -- A Framework for Online Education in Computer Science Degrees with a Focus on Motivation -- 1 Introduction -- 2 Background -- 3 A Framework for Online Education in Computer Science with a Focus on Motivation -- 3.1 An Instance for the Super Mario Game -- 4 Conclusions -- References -- Applications of Gamification in the Context of Higher Education. A Theoretical Approach -- 1 Introduction -- 2 Gamification in Higher Education: Theoretical Approach -- 3 The Role of the Teacher in Gamification Processes -- 3.1 Phases in the Design of a Gamified System -- 4 Innovative Applications and Tools for Gamification -- 5 Conclusions -- References -- Learning AnalyTICs: Exploring the Hypothetical Learning Trajectories Through Mathematical Games -- 1 Introduction -- 2 Related Works -- 3 Theoretical Background -- 4 A Case Study: The Tower of Hanoi Game -- 4.1 Presentation of Hypothesis -- 5 Findings and Discussion -- 6 Conclusions -- References -- A Tool to Assess Students' Performance in Programming -- 1 Introduction -- 2 State of the Art -- 3 Solution -- 4 Conclusions and Future Work -- References -- Experiments on Gamification with Virtual and Augmented Reality for Practical Application Learning -- 1 Introduction -- 2 Related Work -- 2.1 Virtual Reality (VR) and Augmented Reality (AR) -- 2.2 Gamification -- 3 Application of Gamification and Mixed Realities -- 3.1 Gamification Elements -- 3.2 Virtual Reality -- 3.3 Augmented Reality -- 4 Results -- 5 Conclusion and Future Work -- References -- Gamification as a Motivational and Socio-educational Resource in Classrooms with Students at Risk of Social Exclusion -- 1 Introduction.

2 Gamification. Characteristics and Benefits of Its Application -- 3 Gamification as an Inclusion Strategy -- 4 Conclusions -- References -- Workshop on TEL in Nursing Education Programs (NURSING) -- Workshop on TEL in Nursing Education Programs (NURSING) -- chPart3 -- Organization -- Organizing Committee -- The Collaboration Among Pediatric Residents, Nursing and Midwifery Students for Newborn Health: A Quasi-experimental Study on Interprofessional High-Fidelity Patient Simulation -- 1 Introduction -- 2 Method -- 3 Results -- 4 Discussion -- 5 Conclusions -- Appendix -- References -- Care Robots and Bioethics: A Discussion Paper on Moral Standing of New Training Opportunities -- 1 Are Carebots Slave or Friends? -- 2 Robots as Slaves -- 3 Robots as Friends -- 4 Trusting Robots? -- 5 Conclusions -- References -- The Use of Robotics to Enhance Learning in Nursing Education: A Scoping Review -- 1 Introduction -- 2 Methods -- 2.1 Study Design and Search Strategy -- 2.2 Study Selection, Data Collection Process, and Synthesis of Results -- 3 Results -- 4 Discussion -- 5 Conclusions -- References -- Time to Incorporate Artificial Intelligence into High-Fidelity Patient Simulators for Nursing Education: A Secondary Analysis of a Pilot Study -- 1 Introduction -- 2 Materials and Methods: Applying Multiple Scenario Algorithms in a Learning Experience of Postgraduate Critical Care Nursing Students -- 2.1 The HAL® S 1000 Interface: From the Scenario Script to Algorithm Setting -- 2.2 Procedures, Learning Outcomes, Measurement Tools, and Data Analysis -- 2.3 The Simulation

Experiences and Students' Learning Gains -- 3 Lesson Learned
and Future Perspectives -- 4 Conclusion -- References -- Opinions
and Experiences of Nursing Students About the High-Fidelity
Simulation: A Multicentric Multi-method Sequential Study -- 1
Introduction -- 2 Methods -- 3 Results.
4 Discussion.
