

| | |
|-------------------------|--|
| 1. Record Nr. | UNINA9910522984403321 |
| Titolo | Information systems and design : Second international conference, ICID 2021, virtual event, September 6-7, 2021, revised selected papers // edited by Victor Taratukhin [and three others] |
| Pubbl/distr/stampa | Cham, Switzerland : , : Springer, , [2022] ©2022 |
| ISBN | 3-030-95494-3 |
| Descrizione fisica | 1 online resource (354 pages) |
| Collana | Communications in Computer and Information Science ; ; v.1539 |
| Disciplina | 004.6 |
| Soggetti | Computer networks |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Intro -- Preface -- Organization -- Contents -- Digital Transformation of Enterprises Based on Analysis and Management Tools: Practical-Focused Research -- Disciplinary Routing as a Factor of Activization of Scientific Mobility -- 1 Introduction -- 2 Analysis of Well-Known Platform Solutions -- 2.1 The Look at the Digital Platform in Relation to the Documents of the Digital Economy -- 2.2 Prerequisites for the Creation of a Digital Platform with Disciplinary Routing -- 3 Digital Platform Model with Disciplinary Routing -- 3.1 Block Diagram of a Digital Platform with Disciplinary Routing -- 3.2 Distinctive Features of the Digital Platform -- 3.3 Semantic Database of the Classifier of Standards -- 4 Method of Evaluating the Performance of the Computing Complex -- 5 Conclusion -- References -- Challenges and Prospects for Cloud-Based Enterprise Systems in Tradition-Focused Cultures: A Design Thinking Case Study -- 1 Introduction -- 2 Related Works -- 3 Design Thinking Workshop Preparation and Conducting -- 3.1 Workshop Preparation -- 3.2 Workshops -- 3.3 After Workshop Activities -- 4 Results and Discussions -- 5 Conclusion and Future Work -- References -- Modeling Antenna Arrays on Cylindrical Surfaces for Aircraft Control from Ground Objects -- 1 Introduction -- 2 Modeling a Vibrator Antenna Array on a Round Perfectly Conducting Cylinder -- 3 Modeling a Vibrator Array on a Dielectric Coated Cylinder -- 4 Conclusion -- |

References -- Project-Based Education in COVID-19 Era. Disseminating Design Thinking in New Reality -- 1 Background of Design Thinking Using in Remote Mode -- 2 Design Thinking as a Project-Based Education Method in New Reality -- 3 Plekhanov University Version of Design Thinking -- 4 Conclusion -- References -- The Main Models and Approaches in Creating of Innovations in the Post-COVID World in the Area of Information Technologies.

1 Fundamentals of Creating Innovation in IT Companies -- 1.1 Rationale for the Relevance of Research -- 1.2 Creating Innovation and the Pandemic Constrains: A Theoretical Overview -- 2 Research of Creating Innovations Experience in IT Companies in the Conditions of Epidemiological Restrictions -- 2.1 Analysis of Research Results on Creating Innovations in IT Companies -- 2.2 Analysis of Research Results on the Application of Design Thinking in a Virtual Environment -- 2.3 Analysis of Possibilities to Adapt Design Thinking for Use in a Virtual Environment -- 3 Conclusion -- References --

Using SAP Predictive Analytics to Analyze Individual Student Profiles in LMS Moodle -- 1 Introduction -- 2 Description of the Research Object -- 3 Justification of the Choice of SAP Predictive Analytics -- 4 Description of Data Sources -- 5 Visualization of Course Dynamics -- 6 Building a Regression Model -- 7 Building of a Clustering -- 8 Conclusions and Key Outcomes -- References --

Coordination of Models for Describing and Making Agro-Technological Decisions -- 1 Introduction -- 2 Generation of Data in the Agro-Industrial Complex -- 2.1 Phase Variables -- 2.2 Control Variables -- 2.3 Uncontrollable Factors -- 2.4 Model Parameters -- 2.5 Economic Model -- 2.6 Crop Version of the Model -- 3 The Task of Making a Decision -- 4 Linear Case [8] -- 5 Conclusion -- References --

Virtual Reality-Built Prototype as a Next-Gen Environment for Advanced Procurement Reporting and Contract Negotiation -- 1 Introduction -- 1.1 Problem Statement -- 1.2 Our Contribution -- 1.3 Related Work -- 1.4 Research Question and Approach -- 2 Proposed Solution -- 2.1 Business Processes and VR Capabilities Definition -- 2.2 Prototype Architecture and User Stories Modeling -- 2.3 User Interface Development -- 2.4 Environment and Setup for Prototype Testing -- 2.5 User Training Procedure.

3 Feedback Collection -- 3.1 Methods and Context -- 3.2 Procedure -- 4 Results and Discussion -- 4.1 Results -- 4.2 Feasibility Evaluation and Next Steps Definition -- 4.3 Limitations -- 4.4 Conclusions, Recommendations, and Future Work -- References --

Integration of Research on Resilience of Energy and Socio-Ecological Systems Using Artificial Intelligence Methods -- 1 Introduction -- 2 Approaches to Determining Resilience -- 3 Energy and Ecological Safety -- 4 Adaptation of the Concept of Situational Management -- 5 Cognitive Modeling Is One of the Tools for Studying the Sustainability of Energy and Socioecological Systems -- 6 Quality of Life as a Factor in the Integration of Studies on the Resilience of Energy and Ecological Systems -- 6.1 Resilience Criteria -- 6.2 Instrumental Tools -- 7 Conclusion -- References --

Dynamic Reconfiguration of a Distributed Information-Computer Network of an aircraft -- 1 Introduction -- 2 The Concept of an Automated Dynamic Reconfiguration System -- 3 Algorithmic Support -- 4 Conclusion -- References --

Cyber Threat Risk Assessment in Energy Based on Cyber Situational Awareness Techniques -- 1 Introduction -- 2 Cyber Situational Awareness of Digital Energy Facilities -- 2.1 Cyber Situational Awareness Basics -- 2.2 Proposal Method and Models -- 3 Cyber Threat Risk Assessment -- 3.1 Cyber Threat Risk and Cyber Risks -- 3.2 Case Study -- 4 Conclusion -- References --

Features of Creating and Maintaining

a Corporate Culture for Remote Workers Within the Organization in the Digital Transformation Era -- 1 Introduction -- 2 Theoretical Background -- 3 Features of a Corporate Culture for Remote Workers -- 4 Conclusion and Future Work -- References -- Methodological Support of Analysis and Management Tools: Theoretical-Focused Research.

Simulation Modelling for Assessing the Adequacy of Decision Support Models with Choosing a Product Offer -- 1 Introduction and Statement of the Problem -- 2 Simulation of Customer Demand Behaviour -- 3 Imitations Algorithms Based on the Method of Inverse Functions -- 4 Validating Characteristics Aggregation Model Using a Simulation Model -- 5 Conclusion -- References -- The Study of Fuzzy Quantifiers in Multi-criteria Decision-Making -- 1 Introduction -- 2 Formalization of the Decision-Making Problem on a Set of Alternatives -- 3

Investigation of the Properties of Quantifiers in Relation to the Problem of Decision-Making on a Set of Alternatives -- 4 Problems that Arise When Using Quantifiers in OWA Operators -- 5 Modification of the OWA Operator -- 6 Conclusion -- References -- The Dialectic Interrelation Between Digital Organization Architecture Elements -- 1 Introduction.

Problem Statement -- 2 Setting the Framework. The Research Methodology Description -- 3 Implementation of the Framework. Analysis of the Mutual Influence of Enterprise Architecture and System Architecture -- 3.1 Hypothesis and Classification of the Enterprise Types for the Purpose of the Study -- 3.2 Traditional Enterprises -- 3.3 Enterprises Advanced in Terms of ICT Use -- 3.4 Digital Business Enterprises -- 3.5 Digital Platform Enterprises -- 3.6 Enterprises - Digital Ecosystems -- 3.7 Enterprise Architecture Templates and Architectural Styles -- 4 Conclusion -- References -- New Areas of Blockchain Technology Applications During the COVID-19 Pandemic -- 1 Introduction -- 2 Research Methodology. Properties

of the Research Object -- 3 Results of the Study -- 3.1 Blockchain Technology in the Fight Against the COVID-19 Pandemic -- 3.2 Examples of Blockchain Technology Application in the Fight Against the Covid-19 Pandemic -- 4 Conclusion -- References.

Development of Special Software for Solving Large-Dimensional Transport Problems with a Modified Genetic Algorithm Using Multithreading Properties -- 1 Introduction -- 2 Algorithm of Software Operation -- 3 Software Tool Interface -- 4 Development of a Multithreaded Algorithm -- 5 Results -- 6 Conclusion --

References -- Analysis of the Estimates Quality in the Problem of Parametric Identification of Distributed Dynamic Processes Based on a Modified OLS -- 1 Research Models and Methods -- 2

Experimental Study of the Quality of Assessments -- 3 Conclusion -- References -- Scheduling with Genetic Algorithms Based on Binary Matrix Encoding -- 1 Introduction -- 2 Problem Description -- 3

Metaheuristic Solutions -- 4 The Proposed Approach -- 4.1 Binary Matrix Encoding -- 4.2 Mutation Operator -- 4.3 Crossover Operator -- 4.4 Genetic Algorithm -- 4.5 Justification of Convergence -- 5

Computational Experiments -- 6 Conclusion -- References -- Software for Researching the Processes of Curing of Polymer Compositions Using Mathematical Modeling -- 1 Introduction -- 2 Mathematical Software Models -- 3 Experiment and Processing of Results -- 4 Conclusion --

References -- An Intelligent Approach to Decentralized Control in the Agro-industrial Complex -- 1 Introduction -- 2 Decentralization of Control Mechanisms -- 3 Controlled System -- 4 The Amount of Information -- 5 Centralized System Control Model -- 6

Decentralized System Control Model -- 7 Validity of a Qualitative Conclusion -- 8 Linear Case -- 9 Conclusion -- References --

Methodical Approach for Impact Assessment of Energy Facilities
on Environment -- 1 Introduction -- 2 State of the Research Area -- 3
Description of Methodical Approach -- 4 Technology and Tools -- 5
Computational Experiment and Approbation -- 6 Conclusion --
References.
Young Scientists Research in the Areas of Enterprise Digitalization.
