Does a Father Need to be a Man? -- 9. Blindness and Repair in Institutional Psychoanalysis: A Brief History -- 10. A Fatherless Nation: Alexander Mitscherlich Analyzes Post-War Germany -- Part IV Media Matters -- 11. The Planetary Father Function -- 12. What is Called Father? (A Fissure in Familialism).
Sommario/riassunto	To what extent are the concepts of fatherhood and family, as proposed by Sigmund Freud, still valid? Psychoanalysis, Fatherhood, and the Modern Family traces the development of Freud's theory of the Oedipus

complex and discusses his ideas in the context of recent psychoanalytic work, new sociological data, and theoretical explorations on gender and diversity. Contributors include representatives from many academic disciplines, as well as practicing psychoanalysts who reflect on their experience with patients. Their exciting essays break new ground in defining who a father is-and what a father may be.
