Soggetti	Semiotics Poetry Poesie Semiotique Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"Beyond mimesis" might have been a fitting motto for this essay, which asserts that poetry works not through mimesis, the literary representation of reality, but through a semiotic process of displacement and transformation. Drawing on examples from 19th- and 20th-century French poetry (with translations), Riffaterre describes the structure of meaning in a poem . He argues for the self-sufficiency of a literary text and firmly establishes the dialectic between text and reader, between poetic and everyday discourse. The key term in his analysis is the hypogram, a preexistent word group—a cliché, stereotype, epithet , or even another literary work—from which poeticity is derived. Semiotics of Poetry is a lucidly argued and provocative book which will interest readers concerned with poetic and literary theory.
