Sommario/riassunto	The thirteen essays by Allen Buchanan collected here are arranged in such a way as to make evident their thematic interconnections: the important and hitherto unappreciated relationships among the nature and grounding of human rights, the legitimacy of international

institutions, and the justification for using military force across borders. Each of these three topics has spawned a significant literature, but unfortunately has been treated in isolation. In this volume Buchanan makes the case for a holistic, systematic approach, and in so doing constitutes a major contribution at the intersecti

---
