Psychological theories and concepts -- Part IV. Social science theories and concepts -- Part V. Policy intervention, and practice theories and concepts -- Part VI. Transdisciplinary perspectives on theory development in aging -- Part VII. Conclusion.
Sommario/riassunto	This state-of-the-art handbook will keep researchers and practitioners in gerontology abreast of the newest theories and models of aging. The chapters in the third edition place a strong emphasis on the future of theory development, assessing the current state of theories and providing a roadmap for how theory can shape research, and vice versa, in years to come.
