	Human Migration
	Political Science
	Migration Policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- 1. Securitization as the Work of Framing. Towards a new Framework of Analysis -- 2. Before the "Migration Crisis". Migration-Security Continuum in the EU -- 3. Framing Diagnosis and Evaluation of the "Migration Crisis" on the EU Level -- 4. Framing Conceptualization of Remedial Actions Towards the "Migration Crisis" on the EU Level -- Concluding Remarks. Revisiting Patterns of Securitization and Security Logics.
Sommario/riassunto	This open access book investigates the complexity and the modalities of securitization of migration and border control at the EU level. It discusses and compares how different EU institutions and agencies have been deploying different logics of security, e.g. humanitarianism or management of risk, while framing increased migratory flows and so called migration crisis as a security problem. The book argues that the (re)development of EU migration and border control policies in response to increased migratory flows of 2015 have revealed an increasingly tangled nature of securitization of migration in the EU. This is reflected in the intertwining of security logics where migrants

and human mobility tend to be securitized through different, sometimes multiple, interpretative lenses at different stages of policy framing. From a theoretical point of view, the book develops a fresh analytical perspective that further contributes to burgeoning discussion on securitization theory. By bridging the literature on policy framing and securitization it makes a significant contribution to the debates on both securitization and migration. As such this book is of great interest to students, academics, policy makers and all those working in the fields of EU politics, migration, security, and international relations.
