ISBN	3-658-36706-7
Descrizione fisica	1 online resource (48 pages)
Collana	Essentials
Altri autori (Persone)	KühneOlaf JenalCorinna
Disciplina	394.12
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This text deals with foodscapes, which are still a relatively young field of research in the social sciences and were first addressed in the context of questions of spatial inequality in the mid-1990s. In addition to an introduction to various landscape concepts as well as a brief historical outline on the geographical study of food, the volume focuses on the multidimensionality of foodscapes and illustrates this with two case studies.
