

1. Record Nr.	UNINA9910548185303321
Autore	Buzharovski Spiro
Titolo	Introducing blockchain with Java : program, implement, and extend blockchains with Java / / Spiro Buzharovski
Pubbl/distr/stampa	New York, New York : , : Apress Media, , [2022] ©2022
ISBN	1-4842-7927-1
Descrizione fisica	1 online resource (179 pages) : illustrations
Disciplina	005.74
Soggetti	Java (Computer program language) Application software - Development Blockchains (Databases) Computer programming
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes index.
Nota di contenuto	1. Introduction to Blockchain 2. Blockchain Core - Model 3. Database Setup 4. Service Layer Implementation 5. UI View Layer 6. Network Handlers Networking Layer
Sommario/riassunto	Create your own crypto currency by implementing blockchain technology using Java. This step-by-step guide will teach you how to create a user interface using Java FX and implement SQLite DB using JDBC Driver for the blockchain. Introducing Blockchain with Java includes numerous exercises and test questions to help you solidify what you have learned as you progress through the book, and provides ideas on expanding the codebase to make it your own.
