

1. Record Nr.	UNINA9910552722403321
Titolo	German Success Stories in Industrial Mathematics // edited by Hans Georg Bock, Karl-Heinz Küfer, Peter Maass, Anja Milde, Volker Schulz
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2021
ISBN	3-030-81455-6
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (173 pages)
Collana	Mathematics in Industry, , 2198-3283 ; ; 35
Disciplina	650.01510943
Soggetti	Mathematics - Data processing Computer software Mathematical models Mathematical optimization Discrete mathematics Computational Science and Engineering Mathematical Software Mathematical Modeling and Industrial Mathematics Optimization Discrete Mathematics Matemàtica financera Llibres electrònics Alemanya
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Preface -- Keynotes -- Energy -- Engineering -- Food and Beverages -- Life Sciences and Health -- Mobility -- Optimization.
Sommario/riassunto	This book should illustrate the impact of collaborations between mathematics and industry. It is both an initiative of and coordinated by the German Committee for Mathematical Modeling, Simulation and Optimization (KoMSO). This publication aims at comparing the state of the art at the intersection of mathematics and industry, as well as the demands for future development of science and technology in Germany and beyond. Each contribution addresses the importance of

mathematics in innovation by means of introducing a successful cooperation with an industrial partner in order to display the wide range of industrial sectors where the use of mathematics is the crucial factor for success, but also show the variety of mathematical areas involved in these activities. The success stories introduced in this volume will be supplemented by appropriate illustrations. It is the goal of this publication to highlight cooperation between mathematics and industry as a two-way technology and knowledge transfer, providing industry with solutions and mathematics with new research topics and inspiring new methodologies.
