Titolo	Handbook of eHealth evaluation : an evidence-based approach // edited by Francis Lau and Craig Kuziemsky
Pubbl/distr/stampa	Victoria, British Columbia : , : University of Victoria Libraries, , 2017 ©2016
Descrizione fisica	1 online resource (487 pages) : illustrations
Disciplina	362.10285
Soggetti	Information storage and retrieval systems - Medical care - Evaluation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This handbook presents the science and practice of eHealth evaluation based on empirical evidence gathered over many years within the health informatics discipline. The handbook describes different approaches used to evaluate the planning, design, implementation, use and impact of eHealth systems in different health settings. It also provides a snapshot of the current state of knowledge on the consequences of opting for eHealth systems with respect to their effects and implications on provider performance and health outcomes.
