

1. Record Nr.	UNINA9910554057403321
Titolo	2021 IEEE/ACM 4th International Workshop on Software Health in Projects, Ecosystems and Communities (SoHeal) // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, New Jersey : , : IEEE, , [2021] ©2021
ISBN	1-66544-557-2
Descrizione fisica	1 online resource (35 pages) : illustrations
Disciplina	005.1
Soggetti	Computer software - Development Software ecosystems Software engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Factors impacting software health vary substantially depending on the viewpoint of the involved stakeholders software quality attributes concern the source code artefacts, social factors concern the community of contributors maintaining the software artefacts and business and legal factors concern commercial aspects of the software product Because of this variety, there cannot be a unique definition of what constitutes software health, since it encompasses many different developments and evolution attributes, including success, longevity, growth, resilience, survival, diversity, sustainability, license compatibility, etc.
