

1. Record Nr.	UNINA9910554138203321
Titolo	2021 IEEE International Conference on Aerospace and Signal Processing (INCAS) // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 2021
ISBN	1-66540-573-2
Descrizione fisica	1 online resource
Disciplina	629.4
Soggetti	Aerospace engineering Astronautics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The International Conference on Aerospace and Signal Processing (INCAS) is a biannual technical event belonging the Joint Chapter of Aerospace and Electronic Systems Society and Signal Processing Society of the Peru Section of IEEE This event is organized to promote interdisciplinary understanding of signal processing and aerospace systems, as well as the underlying science and technology, and their applications to government and commercial endeavors INCAS 2021 seeks to reflect the professional development, promoting the integration of professionals, researchers, and aerospace industry in a context in which prevail technological innovations to seek the benefit of the community, bringing together the most outstanding companies, industries, universities, and professionals.
