Sommario/riassunto	Design Ideas offers students a variety of different ways to go about finding a design solution. In addition to suggesting fundamental ways to get the creative process moving and develop a design approach, it also proposes various sources of inspiration for design ideas. It focuses on the three elements of place, form, and function, which can sometimes constitute immediate springboards for concrete designs. These elements must eventually be incorporated as the design process. Subjects: Creativity in the design process; Sources of inspiration and design approaches; Working with place; Working with form; Working with function.
