Rethinking theMiddle-Class Protest Paradigm -- 5. Choosing toWork for the State -- 6. Revolution, Democratic Retrenchment, and theMiddle Class -- 7. Aligning theMiddle Class with Autocracy: Rhetoric and Practice -- 8. Conclusion -- Appendix I: Regression Results.
Sommario/riassunto	Conventional wisdom holds that the rising middle-classes are a force for democracy. Yet in post-Soviet countries like Russia, where the middle-class has grown rapidly, authoritarianism is deepening. Challenging a basic tenet of democratization theory, this book shows how the middle-classes can actually be a source of support for autocracy and authoritarian resilience, and reveals why development and economic growth do not necessarily lead to greater democracy.

2. Record Nr.	UNINA9910780361403321

Press at (800) 621-2736 or visit their website at www.sup.org. Over the 1980's and 1990's, most Latin American countries witnessed a retrenchment of the public sector from infrastructure provision and an opening up of infrastructure activities to the private sector. This book analyzes the consequences of these policy changes from two perspectives. First, it reviews in a comparative framework the major trends in infrastructure provision in Latin America over the last two decades. Second, it evaluates the implication of these
