Sommario/riassunto	"Born just one year before the United Nations itself, Ban Ki-moon came of age with the world body. His earliest memories are haunted by the sound of bombs dropping on his village and the sight of fires consuming what remained. At six years old he fled with his family, trudging for miles in mud-soaked shoes, suffering from incessant hunger, and wondering how they would survive-until the United Nations rescued them. And after he experienced its lifesaving mission first-hand, this organization would become his life's calling. Resolved is Ban Ki-moon's personal account of his ten years at the helm of the world body at a time of historic turmoil and promise. Ban performed what has been called "the world's most impossible job" with a natural ability to relate to the poor and struggling people the organization was created to serve and a genuine belief in its capacity for global transformation. He explores past flashpoints-including the September 11 terrorist attacks, engaging the Kim dynasty in North Korea, the Paris climate accords, the Ebola outbreak, the Arab Spring, and managing the UN's relationship with the United States-to offer the story of diplomatic lessons learned. Freed from the diplomatic constraints that come with

the job, he offers a frank and bracing look at the people and events
that shaped our era as well as a piercing analysis of what lies ahead"--
