1.	Record Nr.	UNINA9910554235603321
	Autore	Crawford Kate <1976->
	Titolo	Atlas of AI : power, politics, and the planetary costs of artificial intelligence / / Kate Crawford
	Pubbl/distr/stampa	New Haven : , : Yale University Press, , [2021] ©2021
	ISBN	9780300252392 0300252390
	Descrizione fisica	1 online resource (327 pages) : illustrations
	Disciplina	006.3
	Soggetti	Artificial intelligence Artificial intelligence - Sociological aspects Artificial intelligence - Political aspects
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Nota di bibliografia	Includes bibliographical references (pages 269-313) and index.
	Nota di contenuto	Introduction -- Earth -- Labor -- Data -- Classification -- Affect -- State -- Conclusion: Power -- Coda: Space.
	Sommario/riassunto	The hidden costs of artificial intelligence, from natural resources and labor to privacy and freedom What happens when artificial intelligence saturates political life and depletes the planet? How is AI shaping our understanding of ourselves and our societies? In this book Kate Crawford reveals how this planetary network is fueling a shift toward undemocratic governance and increased inequality. Drawing on more than a decade of research, award-winning science, and technology, Crawford reveals how AI is a technology of extraction: from the energy and minerals needed to build and sustain its infrastructure, to the exploited workers behind "automated" services, to the data AI collects from us. Rather than taking a narrow focus on code and algorithms, Crawford offers us a political and a material perspective on what it takes to make artificial intelligence and where it goes wrong. While technical systems present a veneer of objectivity, they are always systems of power. This is an urgent account of what is at stake as technology companies use artificial intelligence to reshape the world.
