

1. Record Nr.	UNINA9910554238403321
Autore	Christie-Miller Ian
Titolo	Revealing Watermarks : How to Enhance the Security of Hand-Made Paper Items and Reveal Hidden Data
Pubbl/distr/stampa	Boston, MA : , : Academic Studies Press, , 2021 ©2021
ISBN	1-64469-626-6 1-64469-625-8
Descrizione fisica	1 online resource (90 pages)
Classificazione	AM 33100
Disciplina	676.28027
Soggetti	Handmade paper - Europe - History - 16th century Image processing - Digital techniques Paper - Analysis - Data processing Watermarks - Europe - Identification Technology & Engineering / Imaging Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Frontmatter -- Contents -- Acknowledgements -- Introduction -- First Part -- Second Part -- Third Part -- Fourth Part -- Fifth Part -- Downloads -- Bibliography -- Index
Sommario/riassunto	Digital imaging and processing are shown to open new methods of paper research. Early Baltic printed books are the examples in Revealing Watermarks, which also describes how to enhance security, by creating and archiving a digital 'fingerprint'. Thus thefts are deterred and stolen items can be uniquely identified for return.
