Sommario/riassunto	Risk-sharing investment is currently the buzz word in Islamic finance. However, there is an incongruence in applying multilayered and opaque Tijarah contracts for investment purposes. This has contributed to the divergence between Shariah and Common Law and caused tremendous

problems and systemic legal risks to Islamic finance. The authors of Shariah Investment Agreement introduce a legal tool in the form of a Shariah Investment Agreement carefully drafted to ensure that it is Shariah-compliant and can be applied in Common Law jurisdictions as well, so as to allow for the execution of risk-sharing investment in Islamic finance. It details the building blocks and key considerations that must be noted when drafting such agreements so the investor and investee will know what to expect when entering into such a contract. Proper implementation of the Shariah Investment Agreement will pave a clear route to a harmonious convergence between Shariah and Common Law and lead to Islamic finance developing further to become a stronger, unstoppable force in the finance industry.

Sommario/riassunto

Across America, strip clubs have come under attack by a politically aggressive segment of the Christian Right. Using plausible-sounding but factually untrue arguments about the harmful effects of strip clubs on their communities, the Christian Right has stoked public outrage and incited local and state governments to impose onerous restrictions on the clubs with the intent of dismantling the exotic dance industry. But an even larger agenda is at work, according to Judith Lynne Hanna. In *Naked Truth*, she builds a convincing case that the attack on exotic dance is part of the activist Christian Right's "grand design" to supplant constitutional democracy in America with a Bible-based theocracy. Hanna takes readers onstage, backstage, and into the community and courts to reveal the conflicts, charges, and realities that are playing out at the intersection of erotic fantasy, religion, politics, and law. She explains why exotic dance is a legitimate form of artistic communication and debunks the many myths and untruths that the Christian Right uses to fight strip clubs. Hanna also demonstrates that while the fight happens at the local level, it is part of a national campaign to regulate sexuality and punish those who do not adhere to Scripture-based moral values. Ultimately, she argues, the naked truth is that the separation of church and state is under siege and our civil liberties—free speech, women's rights, and free enterprise—are at stake.
