

1. Record Nr.	UNINA9910554283903321
Autore	Chekhova Maria
Titolo	Polarization of light : in classical, quantum, and nonlinearoptics // Maria Chekhova, Peter Banzer
Pubbl/distr/stampa	Berlin, Germany : , : Walter de Gruyter GmbH, , [2021] 2021
ISBN	3-11-066802-5
Descrizione fisica	1 online resource (230 pages)
Collana	De Gruyter Textbook
Disciplina	535.52
Soggetti	Polarization (Light)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Intro -- Contents -- 1 Introduction -- 2 Necessary basics -- 3 Polarization of light: classical description -- 4 Optics of crystals: basic concepts -- 5 Polarization transformations -- 6 Geometric phase -- 7 Structured light -- 8 Polarization of light at the nanoscale -- 9 Polarization elements that we use in the lab -- 10 Polarization in nonlinear optics -- 11 Quantum description of polarization -- 12 Nonclassical states of polarized light -- 13 Applications of quantum polarization states -- Index.
