

1. Record Nr.	UNINA9910554843003321
Titolo	Practical procedures in implant dentistry // edited by Christopher C.K. Ho
Pubbl/distr/stampa	Hoboken, New Jersey : , : John Wiley & Sons, Inc., , [2022] ©2022
ISBN	1-119-39919-X 1-119-39918-1 1-119-39916-5
Descrizione fisica	1 online resource (433 pages)
Disciplina	617.693
Soggetti	Dental implants Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- Foreword -- List of Contributors -- About the Companion Website -- Chapter 1 Introduction -- References -- Chapter 2 Patient Assessment and History Taking -- 2.1 Principles -- 2.1.1 Medical History -- 2.1.2 Medications and Allergies -- 2.1.3 Past Medical History -- 2.1.3.1 Cardiovascular Disorders -- 2.1.3.2 Diabetes Mellitus -- 2.1.4 Age -- 2.1.5 Smoking -- 2.1.6 Osteoporosis and Bisphosphonate Therapy -- 2.1.7 Radiotherapy -- 2.1.8 Dental History -- 2.1.9 Social History -- 2.2 Tips -- References -- Chapter 3 Diagnostic Records -- 3.1 Principles -- 3.1.1 Diagnostic Imaging and Templates -- 3.1.1.1 Three-Dimensional Imaging -- 3.1.1.2 Templates -- 3.1.2 Guided Surgery -- 3.1.3 Diagnostic Records -- 3.1.3.1 Articulated Study Models -- 3.1.3.2 Photographic Records -- 3.2 Procedures -- 3.2.1 Template Design -- 3.2.1.1 Traditional Templates -- 3.2.1.2 Digital Templates -- 3.2.2 Photography -- 3.3 Tips -- References -- Chapter 4 Medico-Legal Considerations and Risk Management -- 4.1 Principles -- 4.1.1 Informed Consent -- 4.2 Procedures -- 4.2.1 Dental Records -- 4.3 Tips -- Reference -- Chapter 5 Considerations for Implant Placement: Effects of Tooth Loss -- 5.1 Principles -- 5.1.1 Local Site

Effects of Tooth Loss -- 5.1.2 Effects of Tooth Loss on the Individual Level -- 5.1.3 Effects of Tooth Loss on the Population Level -- 5.2 Procedures -- 5.3 Tips -- References -- Chapter 6 Anatomic and Biological Principles for Implant Placement -- 6.1 Principles -- 6.1.1 Osteology -- 6.1.2 Innervation and Vascular Supply -- 6.1.3 Musculature -- 6.2 Procedures -- 6.3 Tips -- References -- Chapter 7 Maxillary Anatomical Structures -- 7.1 Principles -- 7.2 Maxillary Incisive Foramen and Canal -- 7.2.1 Importance in Oral Implantology -- 7.3 Nasal Cavity -- 7.3.1 Importance in Oral Implantology. 7.4 Infraorbital Foramen -- 7.4.1 Importance in Oral Implantology -- 7.5 Maxillary Sinus -- 7.5.1 Importance in Oral Implantology -- 7.6 Greater Palatine Artery and Nerve -- 7.6.1 Importance in Oral Implantology -- References -- Chapter 8 Mandibular Anatomical Structures -- 8.1 Principles -- 8.2 Mental Foramen and Nerve -- 8.2.1 Importance in Oral Implantology -- 8.3 Mandibular Incisive Canal and Nerve -- 8.3.1 Importance in Oral Implantology -- 8.4 Genial Tubercles -- 8.4.1 Importance in Oral Implantology -- 8.5 Lingual Foramen and Accessory Lingual Foramina -- 8.5.1 Importance in Oral Implantology -- 8.6 Sublingual Fossa -- 8.6.1 Importance in Oral Implantology -- 8.7 Submental and Sublingual Arteries -- 8.7.1 Importance in Oral Implantology -- 8.8 Inferior Alveolar Canal and Nerve -- 8.8.1 Importance in Oral Implantology -- 8.9 Lingual and Mylohyoid Nerves -- 8.9.1 Importance in Oral Implantology -- 8.10 Submandibular Fossa -- 8.10.1 Importance in Oral Implantology -- 8.11 Mandibular Ramus -- 8.11.1 Importance in Oral Implantology -- References -- Chapter 9 Extraction Ridge Management -- 9.1 Principles -- 9.2 Osteoconductive Materials for Ridge Management -- 9.3 Biologically Active Materials for Ridge Management -- 9.4 Influence of Buccal Wall Thickness on Ridge Management -- References -- Chapter 10 Implant Materials, Designs, and Surfaces -- 10.1 Principles -- 10.2 Implant Bulk Materials -- 10.2.1 Pure Titanium Used for Implant Bulk Material -- 10.2.2 Titanium Alloys Used for Implant Bulk Material -- 10.2.3 Zirconia Used for Implant Bulk Material -- 10.2.4 Other Materials as Bulk Implant Material -- 10.3 Implant Surface Treatments -- 10.4 Implant Design -- 10.4.1 Implant Body Shape Design -- 10.4.2 Implant Thread Design -- 10.4.3 Implant Connection Designs -- 10.4.4 Which Implant Connections Are Better and Why? -- 10.5 Summary -- References. Chapter 11 Timing of Implant Placement -- 11.1 Principles -- 11.1.1 Classification for Timing of Implant Placement -- 11.1.2 Immediate Placement -- 11.1.3 Delayed Implant Placement -- 11.1.3.1 Resolution of Local Infection -- 11.1.3.2 Dimensional Changes of the Alveolar Ridge -- 11.2 Procedures -- 11.2.1 Systemic Risk Factors -- 11.2.2 Local Risk Factors -- 11.2.3 Biomaterials -- 11.2.4 Socket Morphology -- 11.2.5 Flapless Protocol -- 11.2.6 Clinician Experience -- 11.2.7 Adjunctive Procedures with Implant Placement -- 11.2.7.1 Simultaneous Bone Augmentation with Implant Placement -- 11.2.7.2 Adjunctive Soft Tissue Grafting -- 11.2.8 Selecting the Appropriate Treatment Protocol -- 11.3 Tips -- References -- Chapter 12 Implant Site Preparation -- 12.1 Principles -- 12.2 Assessing Implant Sites and Adjacent Teeth -- 12.2.1 Periodontal Charting -- 12.2.2 Assessment of Gingival Biotype and Attached Mucosa -- 12.2.3 Photography -- 12.2.4 Aesthetic Assessment -- 12.2.5 Radiography -- 12.2.6 Occlusal Analysis -- 12.2.7 Endodontic Status of Adjacent Teeth -- 12.3 Site Preparation -- 12.3.1 Grafting - Sinus, Buccal, Soft Tissue -- 12.3.2 Occlusion -- 12.3.3 Adjacent and Opposing Teeth -- 12.3.4 Crown Lengthening and Gingivectomy -- 12.3.5 Orthodontics and Site Preparation -- 12.3.6 Provisional Phase -- References -- Further Reading -- Chapter 13 Loading Protocols in Implantology -- 13.1

Principles -- 13.1.1 Definitions -- 13.1.2 Conventional Loading -- 13.1.3 Early Loading -- 13.1.4 Progressive Loading -- 13.1.5 Immediate Loading -- 13.2 Procedures -- 13.2.1 Selecting a Loading Protocol -- 13.2.2 Methods of Evaluation of the Primary Stability for Immediate Loading -- 13.3 Tips -- References -- Chapter 14 Surgical Instrumentation -- 14.1 Principles -- 14.1.1 Mirror, Probe, and Tweezers -- 14.1.2 Scalpel Handles -- 14.1.3 Scalpel Blades -- 14.1.4 Curettes. 14.1.5 Needle Holders -- 14.1.6 Periosteal Elevators -- 14.1.7 Retractors -- 14.1.8 Depth Probe -- 14.1.9 Tissue Forceps/Pliers -- 14.1.10 Mouth Props/Bite Blocks -- 14.1.11 Scissors -- 14.1.12 Extraction Forceps, Periotomes and Elevators -- 14.1.13 Kidney Dish -- 14.1.14 Surgical Kit, Electric Motor, 20:1 Handpiece, and Consumables -- 14.1.15 Grafting Well -- 14.2 Optional Instrumentation -- 14.2.1 Rongeurs -- 14.2.2 Benex -- 14.2.3 Bone Harvesters -- 14.2.4 Anthogyr Torq Control -- 14.2.5 Piezosurgery -- 14.3 Tips -- Chapter 15 Flap Design and Management for Implant Placement -- 15.1 Principles -- 15.1.1 Neurovascular Supply to Implant Site -- 15.1.2 Flap Design and Management -- 15.1.3 Types of Flap Reflection -- 15.2 Procedures -- 15.2.1 Tissue Punch -- 15.2.2 Envelope Flap -- 15.2.3 Triangular (Two-Sided) and Trapezoidal (Three-Sided) Flap -- 15.2.4 Papilla-Sparing Flap -- 15.2.5 Buccal Roll -- 15.2.6 Palacci Flap -- 15.3 Tips -- References -- Chapter 16 Suturing Techniques -- 16.1 Principles -- 16.1.1 Types of Sutures -- 16.1.1.1 Absorbable Sutures -- 16.1.1.2 Non-absorbable Sutures -- 16.1.2 Suture Adjuncts -- 16.1.3 Suture Size -- 16.1.4 Needle -- 16.2 Procedures -- 16.2.1 Simple/Interrupted Sutures -- 16.2.2 Continuous/Uninterrupted Suture -- 16.2.3 Mattress Sutures -- 16.2.3.1 Horizontal Mattress -- 16.2.3.2 Vertical Mattress -- 16.2.4 Suture Removal -- 16.3 Tips -- Chapter 17 Pre-surgical Tissue Evaluation and Considerations in Aesthetic Implant Dentistry -- 17.1 Principles -- 17.2 The Influence of Tissue Volume on Peri-implant 'Pink' Aesthetics -- 17.3 Tissue Volume Availability and Requirements -- 17.3.1 Hard Tissue Requirements -- 17.3.2 Soft Tissue Requirements -- 17.4 Pre-operative Implant Site Assessment -- 17.5 Key Factors in Diagnosis of the Surrounding Tooth Support Prior to Extraction. 17.5.1 Integrity of the Interproximal Height of Bone -- 17.5.2 Essential Criteria Evaluation Prior to Extraction -- 17.5.3 Integrity of the Buccal Plate of Bone -- 17.6 Tips -- 17.7 Conclusion -- References -- Chapter 18 Surgical Protocols for Implant Placement -- 18.1 Principles -- 18.1.1 Implant Positioning -- 18.2 Procedures -- 18.2.1 One-Stage versus Two-Stage Protocols -- 18.2.2 Post-operative Management Protocols -- 18.3 Tips -- References -- Chapter 19 Optimising the Peri-implant Emergence Profile -- 19.1 Principles -- 19.1.1 The Peri-implant Emergence Profile -- 19.2 Procedures -- 19.2.1 Single-Stage versus Two-Stage Implant Surgery -- 19.2.2 Buccal Roll Flap -- 19.2.3 Pouch Roll Technique -- 19.2.4 Apically Repositioned Flap -- 19.2.5 Buccally Repositioned Flap -- 19.2.6 Free Gingival Graft -- 19.3 Tips -- References -- Chapter 20 Soft Tissue Augmentation -- 20.1 Principles -- 20.1.1 Types of Oral Soft Tissue -- 20.1.2 Anatomical Considerations for Harvesting Autogenous Soft Tissue Grafts -- 20.1.2.1 Hard Palate -- 20.1.2.2 Tuberosity -- 20.1.2.3 Buccal Attached Gingiva of Maxillary Molars -- 20.1.3 Soft Tissue Substitutes -- 20.1.3.1 Allogenic Origin -- 20.1.3.2 Xenograft Origin -- 20.1.4 Purpose of Soft Tissue Graft (Periodontal Plastic Surgery) -- 20.1.4.1 Aesthetic Purpose -- 20.1.4.2 Functional Purpose -- 20.2 Procedures -- 20.2.1 Techniques -- 20.2.1.1 Harvesting the Palatal Tissue Graft as a Free Gingival Graft and Connective Tissue Graft -- 20.2.1.2 Root

Coverage -- 20.2.1.3 Soft Tissue Augmentation Prior to Bone Grafting  
-- 20.2.1.4 Soft Tissue Graft to Gain Keratinised Tissue -- 20.3 Tips --  
References -- Further Reading -- Chapter 21 Bone Augmentation  
Procedures -- 21.1 Principles -- 21.1.1 Why is Bone Grafting  
Necessary? -- 21.1.2 Defect Topography Classification -- 21.1.3  
Requirements for Successful Tissue Grafting.  
21.1.4 Materials Used for Augmentation.
