

1. Record Nr.	UNINA9910554846103321
Titolo	Plastic and microplastic in the environment : management and health risks // edited by Arif Ahamad, Pardeep Singh, and Dhanesh Tiwary
Pubbl/distr/stampa	Hoboken, New Jersey : , : John Wiley & Sons, Incorporated, , [2022] ©2022
ISBN	1-119-80089-7 1-119-80087-0
Descrizione fisica	1 online resource (320 pages)
Disciplina	363.738
Soggetti	Plastics Plastic scrap Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- List of Contributors -- Preface -- Chapter 1 Sources, Occurrence, and Analysis of Microplastics in Freshwater Environments: A Review -- 1.1 Introduction -- 1.2 Sources of Microplastic -- 1.2.1 Primary Sources -- 1.2.1.1 Microplastics from Personal Care Products -- 1.2.1.2 Microplastics from Plastic Resins -- 1.2.2 Secondary Sources -- 1.2.2.1 Microplastics from Degradation of Plastic Debris -- 1.2.2.2 Microplastics from Textile and Domestic Washing -- 1.3 Pathways of Microplastics into Freshwater Environments -- 1.4 Microplastic Analytical Methods in Freshwater -- 1.4.1 Sampling of Microplastic -- 1.4.1.1 Water Samples -- 1.4.1.2 Sediment Samples -- 1.4.2 Sample Preparation -- 1.4.2.1 Extraction of Microplastics -- 1.4.2.2 Removal of Organic Debris -- 1.4.3 Identification of Microplastic -- 1.4.3.1 Visual Sorting -- 1.4.3.2 Identification of Microplastics by Chemical Composition -- 1.5 Occurrence of Microplastic in Freshwater Environments -- 1.5.1 Microplastic in Lakes -- 1.5.2 Microplastic in Rivers -- 1.6 Conclusions and Recommendations -- Acknowledgments -- References -- Chapter 2 Microplastics in Freshwater Environments - With Special Focus on the Indian Scenario --

2.1 Introduction -- 2.2 The Nature and Production of Microplastics -- 2.3 Global Ecological Impacts of Plastic Pollution -- 2.4 Socio-Economic Impacts of Plastic Pollution -- 2.5 Freshwater Plastic Pollution -- 2.5.1 Sources of Freshwater Microplastics -- 2.5.2 Studies on Freshwater Plastic Pollution from around the World -- 2.5.3 The Problem of Freshwater Microplastics in Developing Countries -- 2.5.4 Status of India's Freshwater Plastic Problem -- 2.6 Conclusion and Future Prospects -- References -- Chapter 3 Microplastic Contamination in the Marine Food Web: : Its Impact on Human Health -- 3.1 Introduction. 3.1.1 Microplastic in the Marine Food Web -- 3.1.2 Toxic Impacts on Primary Producers -- 3.1.3 Toxic Impacts on Consumers -- 3.1.4 Associated Risk -- 3.2 Human Health Implication -- 3.3 Conclusion and Future Perspective -- Acknowledgements -- References -- Chapter 4 Microplastic in the Aquatic Ecosystem and Human Health Implications -- 4.1 Introduction -- 4.2 Sources and Food-Chain Entry -- 4.3 Human Health Implications -- 4.3.1 Digestive System -- 4.3.2 Respiratory System -- 4.3.3 Nervous System -- 4.3.4 Placental Barrier -- 4.3.5 Other Health Impacts -- 4.4 Future Directions and Plausible Solutions -- 4.5 Conclusion -- References -- Chapter 5 Interactions of Microplastics Toward an Ecological Risk in Soil Diversity: An Appraisal -- 5.1 Introduction -- 5.2 Microplastic-Types and Properties -- 5.3 Microplastic Sources and Accumulation in Soil and Sediments -- 5.4 Migration of Microplastics' Fate in Environment -- 5.5 Migration of Microplastics through Soil -- 5.6 Soil Analysis Methodology -- 5.7 Collection of Samples -- 5.8 Sample Preparation -- 5.8.1 Drying -- 5.8.2 Sieving -- 5.8.3 Soil Aggregates Dismantling and Density Separation -- 5.8.4 Removing Soil Organic Matter (SOM) -- 5.8.5.1 Microscopy -- 5.8.5.2 Spectroscopy -- 5.8.5.3 Thermoanalysis -- 5.8.5 Microplastics Quantification -- 5.9 Interactions and Impacts on Soil Diversity -- 5.9.1 Soil Properties -- 5.9.2 Soil Microbial Activity -- 5.9.3 Microplastics Entered Via Food Chains -- 5.9.4 The Effect of MPs on Soil Animals -- 5.9.5 The Effect of MPs on Plants -- 5.10 Ecotoxicology of Microplastic -- 5.11 Mitigation Process of Microplastics -- 5.11.1 Biological Methods -- 5.12 Conclusion and Future Perspectives -- References -- Chapter 6 Microplastics in the Air and Their Associated Health Impacts -- 6.1 Introduction -- 6.2 Microplastics in the Atmosphere -- 6.2.1 Physical Characteristics. 6.2.2 Chemical Characteristics -- 6.2.3 Sources and Generation -- 6.2.4 Fate and Dispersion -- 6.3 Measurement of Atmospheric Microplastics -- 6.3.1 Sampling and Analysis -- 6.3.2 Atmospheric Abundance of Microplastics -- 6.4 Health Impacts of Microplastics -- 6.4.1 Routes of Exposure and Interaction with Body Tissues -- 6.4.2 Health Impacts -- 6.5 Conclusions and Future Perspectives -- References -- Chapter 7 Plastic Marine Litter in the Southern and Eastern Mediterranean Sea: Current Research Trends and Management Strategies -- 7.1 Introduction -- 7.2 Analysis of Marine Litter Research Trends in the Southern and Eastern Mediterranean Sea Countries -- 7.3 Microplastics Abundance in the Marine Environment of the Southern and Eastern Mediterranean Countries -- 7.4 Microplastics Characterization and Identification Techniques -- 7.5 Microplastics in Coastal Areas Affected by Rivers -- 7.6 Socioeconomic Impact of Plastic Marine Litter and Reduction Approaches -- 7.7 Knowledge Gaps and Recommendation for Future Research -- References -- Chapter 8 Advanced Detection Techniques for Microplastics in Different Environmental Media -- 8.1 Introduction -- 8.2 Methodology -- 8.2.1 Selection of Criteria and Search for Articles -- 8.2.2 Item Selection -- 8.3 Results -- 8.3.1 Sampling Techniques in Different Marine

Environments -- 8.3.1.1 Seawater -- 8.3.1.2 Sea Sediments -- 8.3.1.3 Beaches -- 8.3.1.4 Mangroves -- 8.3.1.5 Marine Fauna -- 8.3.1.6 Marine Vegetation -- 8.3.2 Sample Processing in Laboratory -- 8.3.2.1 Water -- 8.3.2.2 Sediments -- 8.3.2.3 Marine Fauna -- 8.3.2.4 Marine Vegetation -- 8.4 Conclusions and Future Perspectives -- References -- Chapter 9 Bio-Based and Biodegradable Plastics as Alternatives to Conventional Plastics -- 9.1 Introduction -- 9.2 Definition and Classification of Plastics. 9.3 Current Status of Conventional Plastics and Effect on Environment -- 9.4 Advantages and Disadvantages of Conventional Plastics -- 9.4.1 Advantages -- 9.4.2 Disadvantages -- 9.5 Current Status of Biodegradable Plastics and Effect on Environment -- 9.6 How Plastic Degrades -- 9.7 Advantages and Disadvantages of Bio-Based Plastics -- 9.8 National and International Agreements and Conventions to Control Use of Plastics -- 9.9 The Future of Plastics -- 9.10 Conclusions -- References -- Chapter 10 Biodegradable Plastics: New Challenges and Possibilities toward Green Sustainable Development -- 10.1 Introduction -- 10.1.1 The Environmental Impact of Conventional Plastics -- 10.1.2 Classification and Types of Biopolymers -- 10.2 Biopolymers of Microbial Systems -- 10.2.1 Microbial Polyesters: Polyhydroxyalkanoates -- 10.2.2 Recombinant Protein Polymers -- 10.2.3 The Microbial Polysaccharides -- 10.2.3.1 Bacterial Cellulose -- 10.2.3.2 Xanthan -- 10.2.3.3 Dextrans: Phullan and Glucans -- 10.3 Biopolymers of Plants and Higher Organisms -- 10.3.1 Starch -- 10.3.2 Cellulose -- 10.3.3 Lignin -- 10.3.4 Chitin and Chitosan -- 10.3.5 Polylactic Acid -- 10.3.5.1 Properties of PLA -- 10.3.5.2 Improvements in PLA -- 10.3.5.3 Application -- 10.4 Factors Affecting the Rate of Degradation of Bio-plastics and Biodegradable Plastics -- 10.5 Future Aspects and Challenges for Development of Bio-based and Biodegradable Plastics -- 10.6 Conclusions -- Acknowledgement -- References -- Chapter 11 Current Trends, Challenges, and Opportunities for Plastic Recycling -- 11.1 Introduction: The Pollution Problem Involving Plastic -- 11.2 Sources, Types, and Transportation of Plastics in the Environment -- 11.2.1 Plastics Sources and Types -- 11.2.2 Plastic Transportation in Aquatic Environments -- 11.3 An Introduction to Waste Management -- 11.3.1 Plastic Waste Treatment. 11.4 Plastic Recycling Systems -- 11.4.1 Recovery -- 11.4.2 Preparation -- 11.4.3 Primary Recycling -- 11.4.4 Energy Recovery -- 11.4.5 Mechanical Recycling -- 11.4.5.1 Sorting/Separating -- 11.4.5.2 Electrostatic Separation -- 11.4.5.3 Manual Sorting -- 11.4.5.4 Sink Float Method -- 11.4.5.5 Plastic Identification -- 11.4.5.6 Shredding -- 11.4.5.7 Agglomeration -- 11.4.5.8 Washing/Cleaning -- 11.4.6 Chemical Recycling of Solid Plastic Pollutants -- 11.4.7 Reuse and Re-stabilization -- 11.5 Latest Industry Trends and a Future Perspective -- 11.6 Conclusions -- References -- Chapter 12 Microbial Degradation of Micro-Plastics -- 12.1 Introduction -- 12.2 Plastic Categorization Based on Biodegradability -- 12.2.1 Non-biodegradable Plastics -- 12.2.2 Biodegradable Plastics -- 12.2.3 Biosynthetic Plastics -- 12.2.4 Blended Plastics -- 12.2.5 Biocomposite Polymers -- 12.3 Microplastics Cycling into the Environment -- 12.4 Microorganisms and Interactions with Microplastics -- 12.5 Factors Affecting Biodegradation of Microplastics -- 12.6 Mechanisms of Microplastic Biodegradation -- 12.7 Conclusion and Future Perspectives -- References -- Chapter 13 Life Cycle Assessment (LCA) of Plastics -- 13.1 Introduction -- 13.2 Plastics -- 13.2.1 Types of Plastics -- 13.2.2 Plastic Bags -- 13.2.3 Plastic Waste -- 13.2.4 Recycling and Disposal -- 13.2.5 Indian Scenario -- 13.3 Life Cycle Assessment (LCA) -- 13.3.1 Phases of LCA -- 13.3.1.1 Goal and Scope Definition -- 13.3.1.2 Inventory Analysis --

13.3.1.3 Impact Assessment -- 13.3.1.4 Interpretation -- 13.3.2
Importance of LCA -- 13.3.3 LCA for Plastics -- 13.4 Plastics
Sustainability by LCA -- 13.5 Discussion and Conclusion -- References
-- Chapter 14 Role of Education and Society in Dealing Plastic Pollution
in the Future -- 14.1 Introduction -- 14.2 Consumption -- 14.3 Global
Dimension of Plastic Pollution.
14.4 Plastic Pollution in Natural Environments.
