

1. Record Nr.	UNINA9910555006903321
Titolo	Clinical atlas of canine and feline dermatology // edited by Kimberly S. Coyner
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley Blackwell, , [2020] ©2020
ISBN	1-119-22632-5 1-119-22631-7 1-119-22633-3
Descrizione fisica	1 online resource (515 pages)
Disciplina	636.708965
Soggetti	Dogs - Diseases Cats - Diseases Veterinary dermatology Atlas
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"Clinical Atlas of Canine and Feline Dermatology presents more than a thousand high-quality color photographs depicting common dermatologic diseases and conditions, making it easy for clinicians to quickly evaluate and accurately identify clinical dermatologic lesions. Easy-to-use charts of dermatologic diseases provide differential diagnoses and treatments, helping practitioners to quickly find the most common differential diagnoses, perform appropriate diagnostics, and treat their patients. Written by experienced veterinary dermatologists, the book begins with chapters on essential dermatologic diagnostics and identification and interpretation of skin lesions, featuring pictorial illustrations with commentary of the most common causes. Diagnostic algorithms for pruritus and alopecia simplify the workup of these very common presenting symptoms, and easily referenced tables detail the presentation, diagnosis, and management of hundreds of skin diseases. The book also offers a dermatologic formulary including systemic and topical therapies.

Provides more than 1200 images showing the most encountered dermatologic conditions in dogs and cats  
Includes easy-to-interpret charts of differential diagnoses and treatments  
Offers diagnostic and treatment algorithms for the most common skin diseases in dogs and cats  
Presents details of the presentation, diagnosis, and management of hundreds of skin diseases in tables for quick reference  
Features video clips on a companion website demonstrating dermatologic diagnostic techniques, including skin scrapings and cytology, aspiration of skin masses for cytology, and biopsy  
Offering fast access to practical information for diagnosing and treating dermatologic disease in small animal practice, *Clinical Atlas of Canine and Feline Dermatology* is an essential book for any small animal practitioner or veterinary student"
