ISBN	1-119-12333-X 1-119-12332-1 1-119-12331-3
Descrizione fisica	1 online resource
Soggetti	Evidence-based nursing Evidence-Based Nursing 0 (DNLM)D055318
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Perspective from the Field -- Guiding Theories, Models and Frameworks -- A Roadmap for Implementing Best Practices + Appendix -- Call to Action -- Find the Best Practice Evidence -- Assemble Evidence on Context and Current Practices -- Customize Best Practices to the Local Context + appendix -- Discover Barriers and Drivers to Best Practice Implementation + appendix -- Implementation Strategies- What do we know works? + appendix -- Tailor Implementation Strategies + appendix -- Field Test, Plan Evaluation and Prepare to Launch + appendix -- Launch and Evaluate -- Sustain the Gains + appendix -- Reflections : Is it worth it?.
Sommario/riassunto	"The purpose of this book is to build on the current state of implementation knowledge by integrating theory and empirical knowledge with experiential knowledge that we have gained in facilitating implementation of evidence in practice settings. It is intended to create a 'how to' for nurses and others wanting to, or being responsible for, facilitating the uptake of evidence in practice or de-implementation of ineffective practices. Our aim is to provide a practical resource for those wishing to put into service best practices at the point-of-care"-- c Provided by publisher.
