

1. Record Nr.	UNINA9910555142003321
Autore	Thomas Larry
Titolo	Coal geology // Larry Thomas
Pubbl/distr/stampa	United Kingdom : , : John Wiley & Sons, Incorporated, , 2020
ISBN	1-119-42426-7 1-119-42412-7 1-119-42430-5
Descrizione fisica	1 online resource (538 pages) : illustrations
Disciplina	634.905
Soggetti	Science: Geology, Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	"Coal Geology covers all aspects of coal geology in one volume, bridging the gap between the academic aspects and the practical role of geology in the coal industry. The object of the book is to provide the reader with a with a description of the origins of coal together with the physical and chemical properties of coal and coal petrology before proceeding to cover all areas of coal exploration, production and use. The truly global approach, drawn from the international experiences of the author, recognizes the growing role of coal use in emerging markets. Bridges the gap between academic aspects of coal geology and the practical role of geology in the coal industry Defines worldwide coal resource classifications and methods of calculation Addresses the alternative uses of coal as a source of energy, together with the environmental implications of coal usage"--
