

1. Record Nr.	UNINA9910556881203321
Autore	Saeed Faisal
Titolo	Advances on intelligent informatics and computing : health informatics, intelligent systems, data science and smart computing / / Faisal Saeed, Fathey Mohammed, and Fuad Ghaleb
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-030-98741-8
Descrizione fisica	1 online resource (793 pages)
Collana	Lecture Notes on Data Engineering and Communications Technologies ; ; v.127
Disciplina	006.312
Soggetti	Data mining Data mining - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Organization -- IRICT 2021 Organizing Committee -- International Advisory Board -- Conference General Chair -- Program Committee Chair -- General Secretary -- Technical Committee Chair -- Publications Committee -- Publicity Committee -- IT & Multimedia Committee -- Treasure Registration Committee Chair -- International Technical Committee -- Contents -- Artificial Intelligence -- Automatic Saudi Arabian License Plate Detection and Recognition Using Deep Convolutional Neural Networks -- 1 Introduction -- 2 Related Works -- 3 Proposed Approach -- 3.1 License Plate Detection Phase -- 3.2 Image Pre-processing Phase -- 3.3 Character Segmentation and Recognition Phase -- 4 Implementation and Experiments -- 4.1 Dataset Collection and Labeling -- 4.2 Faster-RCNN-Based LP Detection -- 4.3 Image Preprocessing -- 4.4 LP Segmentation and Recognition -- 5 Conclusion and Future Work -- References -- Ship Detection Approach Using Machine Learning Algorithms -- 1 Introduction -- 2 Background and Related Work -- 3 Proposed Methodology -- 4 Results and Discussion -- 4.1 Dataset -- 4.2 Results -- 5 Conclusions -- References -- A New Deep Learning System for Wild Plants Classification and Species Identification: Using Leaves and Fruits -- 1 Introduction -- 2 Review of Related Literatures

-- 3 Description of the Implemented Techniques -- 4 Empirical Studies
-- 4.1 Description of Dataset -- 4.2 Dataset Analysis -- 4.3 Feature's
Extraction -- 5 Proposed Models and Results -- 5.1 Families
Classification (Binary Classification) -- 5.2 Species Identification
(Categorical Classification) -- 6 Conclusion and Recommendation
for the Future Work -- References -- A Novel Weighted Fractional
TDGM Model and Quantum Particle Swarm Optimization Algorithm
for Carbon Dioxide Emissions Forecasting -- 1 Introduction -- 2
Materials and Methods.
2.1 The Weighted Fractional Accumulation Generating Operator
and Their Inverse -- 2.2 The Weighted of Fractional-Order of TDGM
Model -- 2.3 Quantum Particle Swarm Optimization Algorithm
Weighted of Fractional-Order of WFGM Model -- 3 Experiment Results
-- 4 Conclusions -- References -- Text Detergent: The Systematic
Combination of Text Pre-processing Techniques for Social Media
Sentiment Analysis -- 1 Introduction -- 2 Related Work -- 3
Methodology -- 3.1 Phase 1 -- 3.2 Phase 2 -- 3.3 Phase 3 -- 4 Results
-- 4.1 Phase 4 -- 5 Discussion -- 6 Conclusion -- References --
Improve Short-term Electricity Consumption Forecasting Using a GA-
Based Weighted Fractional Grey Model -- 1 Introduction -- 2 The
Weighted Fractional Accumulated Generating Matrices and Their Inverse
Matrices -- 3 The Weighted of Fractional-Order Grey Model -- 4
Genetic Algorithm for Determining the Optimal Value of Fractional
Order of WFGM Model -- 5 Experiment Results -- 5.1 Performance
Measures -- 5.2 Obtained Results and Comparison -- 6 Conclusion --
References -- Efficient Human Activity Recognition System Using Long
Short-Term Memory -- 1 Introduction -- 2 Related Work -- 3 Data
Acquisition -- 4 Pre-processing -- 5 Architecture -- 6 Results -- 7
Conclusions -- References -- Job Training Recommendation System:
Integrated Fuzzy AHP and TOPSIS Approach -- 1 Introduction -- 2
Research Method -- 3 Results and Discussion -- 3.1 Criteria and Sub-
criteria Analysis -- 3.2 Criteria and Sub-criteria Analysis -- 3.3 Criteria
and Sub-criteria Analysis -- 4 Conclusion -- References --
Improvement of Population Diversity of Meta-heuristics Algorithm
Using Chaotic Map -- 1 Introduction -- 2 Review of Literature -- 2.1
Particle Swarm Optimization (PSO) -- 2.2 Inertia Weight -- 2.3 Chaotic
Logistic Map -- 3 Methodology -- 4 Result and Discussion.
4.1 Comparison of NFE, Mean Fitness Value and Standard Deviation
for Proposed CHPSO and Other Algorithms -- 5 Conclusion --
References -- Adaptive and Global Approaches Based Feature Selection
for Large-Scale Hierarchical Text Classification -- 1 Introduction -- 2
Literature Review -- 2.1 Hierarchical Classification (HC) -- 2.2
Dimensional Reduction (DR) -- 2.3 Feature Selection Approaches -- 3
Material and Methods -- 3.1 Hierarchical Classification Method -- 3.2
Information Gain Method -- 3.3 Chi-square Method -- 3.4 Adaptive
and Global Approaches -- 4 Dataset and Experiment Settings -- 5
Results Analysis -- 6 Conclusion -- References -- Ensemble Method
for Online Sentiment Classification Using Drift Detection-Based
Adaptive Window Method -- 1 Introduction -- 2 Related Works -- 3
Proposed Ensemble Method for Sentiment Classification Using DDAW --
3.1 Drift Detection Component -- 3.2 Ensemble Method for Sentiment
Classification Using DDAW -- 4 Experimental Results and Discussions
-- 4.1 Performance of the Different DDAW Versions -- 4.2 Performance
Comparison with Existing Methods -- 5 Conclusion -- References --
Rainfall Forecasting Using the Group Method of Data Handling Model:
A Case Study of Sarawak, Malaysia -- 1 Introduction -- 2 The Group
Method of Data Handling Model -- 3 Methods -- 3.1 Dataset -- 3.2
Experimental Results -- 4 Conclusion -- References -- Detecting

Public Outlook Towards Vaccination Using Machine Learning Approaches: A Systematic Review -- 1 Introduction -- 2 Theoretical Background -- 3 Systematic Review -- 3.1 Machine Learning Models -- 3.2 Deep Learning Models -- 3.3 Ensemble Learning Models -- 4 Systematic Review Results -- 5 Conclusion -- References --

Forecasting Carbon Dioxide Emission for Malaysia Using Fractional Order Multivariable Grey Model -- 1 Introduction -- 2 Methodology. 2.1 Fractional Order Multivariable Grey, FAGM (1,N) Model -- 2.2 Forecast Accuracy Measurement -- 2.3 Conceptual Framework -- 3 Result and Discussion -- 4 Conclusion -- References --

A Hybrid Algorithm for Pattern Matching: An Integration of Berry-Ravindran and Raita Algorithms -- 1 Introduction -- 1.1 Problem Statement -- 2 Related Studies -- 3 Materials and Methods -- 3.1 Hybrid Algorithm Pre-processing Phase -- 3.2 Hybrid Algorithm Searching Phase -- 4 Analysis -- 4.1 Lemma 1: The Worst-Case Scenario with Respect to Time Complexity is Defined as $O(Mn)$. -- 4.2 Lemma 2: The Best-Case Scenario with Respect to Time Complexity is $O(N/(M + 2))$. -- 4.3 Evaluation -- 5 Results -- 6 Discussion -- 7 Conclusion -- References --

A Survey of the Hybrid Exact String Matching Algorithms -- 1 Introduction -- 2 String Matching Algorithms -- 2.1 Exact String Matching Algorithm -- 2.2 Approximate String Matching Algorithm -- 3 Evaluation Approaches -- 4 Review on Hybrid Algorithms -- 4.1 Berry-Ravindran Hybrid Algorithm -- 4.2 SSABS Hybrid Algorithm -- 4.3 FJS Hybrid Algorithm -- 4.4 TVSBS Hybrid Algorithm -- 4.5 BMBR Hybrid Algorithm -- 4.6 ZTBMH Hybrid Algorithm -- 4.7 BRFS Hybrid Algorithm -- 4.8 BRBMH Hybrid Algorithm -- 4.9 BRQS Hybrid Algorithm -- 4.10 ZTFS Hybrid Algorithm -- 4.11 RSMA-BR Hybrid Algorithm -- 4.12 ShiftAndBMS Hybrid Algorithm -- 4.13 BRSS Hybrid Algorithm -- 4.14 BHAC Hybrid Algorithm -- 4.15 KMPBS Hybrid Algorithm -- 5 Discussion -- 6 Conclusion -- References --

Data Science -- C-SAR: Class-Specific and Adaptive Recognition for Arabic Handwritten Cheques -- 1 Introduction -- 2 Related Work -- 3 Adaptive Recognition for Arabic Handwritten Cheques -- 3.1 Angular Feature Extraction Method -- 3.2 Arabic Numbers -- 3.3 Class-Specific Taxonomy of Arabic Cheque Words -- 3.4 Machine Learning Models -- 4 Experiment Results -- 5 Conclusion.

Appendix A -- Appendix B -- Appendix C -- References --

Extraction of Spatiotemporal Association Rules for Forest Fires Prediction -- 1 Introduction -- 2 Spatiotemporal Association Rule -- 3 Extraction of Spatiotemporal Association Rules Process -- 3.1 Pretreatment -- 3.2 Algorithm and Interest Measures Used -- 3.3 Post-treatment -- 4 Experimental Design -- 5 Association Rules Obtained and Interpretation -- 6 Conclusion -- References --

Opinion Mining Using Topic Modeling: A Case Study of Firoozeh Dumas's Funny in Farsiin Goodreads -- 1 Introduction -- 2 Literature Review -- 2.1 Social Media Mining -- 2.2 Topic Modelling -- 3 Methodology and Materials -- 4 Results -- 4.1 Text Normalization -- 4.2 Text Visualization -- 4.3 Topic Modeling -- 5 Discussion and Conclusion -- References --

Opinion Mining Using Sentiment Analysis: A Case Study of Readers' Response on Long Litt Woon's The Way Through the Woodsin Goodreads -- 1 Introduction -- 2 Literature Review -- 2.1 Social Media and Opinion Mining -- 2.2 Sentiment Analysis -- 3 Methodology and Materials -- 4 Analysis and Results -- 4.1 Text Exploration and Visualization -- 4.2 Sentiment Analysis Results Using VADER and TextBlob -- 5 Discussion -- 6 Conclusion -- References --

Opinion Mining of Readers' Responses to Literary Prize Nominees on Twitter: A Case Study of Public Reaction to the Booker Prize (2018-2020) -- 1 Introduction -- 2 Literature Review -- 2.1 Topic Modelling

-- 2.2 Sentiment Analysis -- 2.3 Clustering -- 3 Materials
and Methodology -- 4 Results and Discussion -- 4.1 Topic Modelling
-- 4.2 Sentiment Analysis -- 4.3 Clustering -- 5 Conclusion --
References -- Dictionary-Based DGAs Variants Detection -- 1
Introduction -- 2 Related Works -- 3 Methodology -- 3.1 Dictionary-
Based DGAs -- 3.2 Extracted Features -- 3.3 Data Sets and Classifiers
-- 3.4 Feature Selection.
4 Results and Discussion.
