

1. Record Nr.	UNINA9910557105603321
Autore	Belfiore Nicola Pio
Titolo	Engineering for Surgery
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2020
Descrizione fisica	1 online resource (204 p.)
Soggetti	Medicine and Nursing Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This Special Issue offers a little taste of the immense variety of an intrinsically vast and interdisciplinary subject, namely, the applications of engineering to surgery. Some of these have been successfully applied or are still under development, while we have been offered a preview of others thanks to the fantasy of creative science fiction writers. This Special Issue aims to stimulate the interest of engineers and surgeons, who will benefit from mutual advantages gained from their cooperation.
