Pubbl/distr/stampa	Thousand Oaks, Calif., : SAGE, 1998
ISBN	1-4833-2826-0 1-4522-5057-X
Descrizione fisica	1 online resource (ix, 404 p.)
Altri autori (Persone)	HechtMichael L
Disciplina	303.385
Soggetti	Toleration Prejudices Prejudices - United States Communication - Social aspects Communication - Social aspects - United States Intergroup relations Intergroup relations - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 346-386) and index.
Nota di contenuto	Cover; Contents; Acknowledgments; Part I - Introduction; Chapter 1 - Introduction; Chapter 2 - Tolerance/Intolerance: A Multidisciplinary View of Prejudice; Chapter 3 - Layers and Holograms: A New Look at Prejudice; Part II - Spheres of Prejudice; Chapter 4 - Identifying Racist Language Linguistic Acts and Signs; Chapter 5 - Communication of Sexism; Chapter 6 - Communication of Heterosexism; Chapter 7 - Communication of Classism; Chapter 8 - Communication of Ageism; Part III - Contexts of Prejudice; Chapter 9 - Communicating Prejudice in Personal Relationships Chapter 10 - Communicating Prejudice in Organizations Chapter 11 - Communicating Prejudice in the Media: Upending Racial Categories in Doubles; Part IV - Personal Narratives; Chapter 12 - Abandoning the Sacred Hierarchy: Disempowering Hegemony Through Surrender to Spirit; Chapter 13 - Scenes From an Individual of Color: On Individuals and Individualism; Chapter 14 - A Contextual Statement Surrounding Three Poems of Prejudice; Chapter 15 - Blessed Are the Mysteries;

Chapter 16 - Upsetting That Delicate Balance: Reflections on Experiential Subtleties; Part V - Interventions  
Chapter 17 - Personal and Interpersonal Interventions  
Chapter 18 - Organizational Interventions to Prejudice; Chapter 19 - Educational Interventions: The Lions Roar; Chapter 20 - Public Policy Interventions to Prejudice; Part VI - Conclusion; Chapter 21 - (In)Conclusion; Notes; References; Index; About the Contributors

**Sommario/riassunto**

A new integrative conceptual model of prejudice - the layered perspective of cultural intolerance - is presented in the volume. This model is used to analyze the communication of prejudice in a variety of guises such as racism, sexism, homophobia, ageism and classism. Drawing on multidisciplinary perspectives, the first two chapters present the model and theoretical foundation for the book. Subsequent chapters examine specific foci of prejudice including personal prejudice in relationships, organizations, and the media. A series of personal narratives are also included to illustrate specific types and instances of prejudice.

**Sommario/riassunto**

This study about two concepts wants to recuperate, under a literary and philosophic perspective, the famous antithesis originated in Classical Athens, and transferred through the occidental cultures along the centuries. Therefore, retaking the arguments of past discussions,

nomos versus physis are considered in their process of transmission and reception.

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>There is some talk about an antibiotic Armageddon due to quickly developing resistance towards commercially available antibiotics. For the most part, the classical antibiotic pipeline has dried up, and antibiotic resistance to any new drugs quickly develops. It is here that metal-based antimicrobials can step forward as possible solutions in this antimicrobial resistance era. The biological targets of metal atoms are more diverse, thus making it more difficult for bacteria to develop resistance compared with classical antibiotics. The metal silver has been used since antiquity for wound healing and water purification. At present, it is the most prevalent antimicrobial metal used in healthcare, industry, and consumer products. Silver is being used in the form of ionic salt, colloids, or in specific nanomaterials, and as described in this book, it can be applied as mixtures with other antimicrobials or coating composites. The different formulations are explored for their efficacy against a variety of problems related to agricultural and medical infections. Whilst by no means exhaustive, this book nicely highlights the present directions in silver-based antimicrobial research and antimicrobial formulation development. The chapters have been</p>

organized from a general introductory review to approaches of mixing other antimicrobials and materials to enhance silver performance. This is followed by synthetic approaches. First are biogenic (sometimes called green or eco-friendly) approaches, followed by advanced physical-chemical synthetic approaches. The book ends with an overview of applications through a review of patents over the past 10 years.
