Sommario/riassunto	<p>The advent of the fourth industrial revolution, Industry 4.0, brings about both opportunities and challenges that are likely to set developed economies even farther apart from emerging economies. This book, through the perspective of researchers in the emerging markets, presents analyses on a number of issues important to entrepreneurial finance, such as debt financing, mergers and acquisitions, stock market efficiency, resource allocation and consumption, and sustainable development. It aims at improving our understanding of the financing needs as well as the financial risks involved in entrepreneurial endeavors in less developed settings in the new era.</p>
