

1. Record Nr.	UNINA9910557365303321
Autore	Soldati Mauro
Titolo	Landscapes and Landforms of Terrestrial and Marine Areas
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2021
Descrizione fisica	1 electronic resource (342 p.)
Soggetti	Research & information: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This volume collects papers dealing with the integrated study of emerged and submerged areas, by means of different approaches and techniques. It shows the reasons why the integration of terrestrial and marine datasets would be desirable in geoenvironmental studies, and demonstrates how such an integration is unquestionably beneficial in modern research, ranging from Late Quaternary landscape evolution to geohazards, geomorphological mapping, geoarchaeology, geoheritage and geodiversity, and marine benthic habitat mapping.
