"Supports the cause of the appellant priests, against Blackwell."--Folger Shakespeare Library Catalogue. Errata on N3v. Reproduction of the original in the Cambridge University Library.
Sommario/riassunto	eebo-0021

2. Record Nr.	UNINA9910346739503321
Autore	Susu M. Zughaier
Titolo	The Role of Iron in Bacterial Pathogenesis
Pubbl/distr/stampa	Frontiers Media SA, 2018
Descrizione fisica	1 online resource (156 p.)
Collana	Frontiers Research Topics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The collection of articles published in this eBook represent different facets of the interactions between pathogens and their host concerning the battle for iron. Pathogens have developed different strategies to acquire iron from their host. These include the production of siderophores, heme acquisition and ferrous iron uptake.

3. Record Nr.	UNINA9910557365303321
Autore	Soldati Mauro
Titolo	Landscapes and Landforms of Terrestrial and Marine Areas
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2021
Descrizione fisica	1 online resource (342 p.)
Soggetti	Research & information: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This volume collects papers dealing with the integrated study of emerged and submerged areas, by means of different approaches and techniques. It shows the reasons why the integration of terrestrial and marine datasets would be desirable in geoenvironmental studies, and demonstrates how such an integration is unquestionably beneficial in modern research, ranging from Late Quaternary landscape evolution to geohazards, geomorphological mapping, geoarchaeology, geoheritage and geodiversity, and marine benthic habitat mapping.
