

1. Record Nr.	UNINA9910557438503321
Autore	Durazzo Alessandra
Titolo	Forest, Foods and Nutrition
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2021
Descrizione fisica	1 electronic resource (342 p.)
Soggetti	Research & information: general Biology, life sciences Food & society
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The Special Issue, entitled “Forest, Food and Nutrition”, is focused on understanding of the intersection and linking existing between forests, food, and nutrition. Forest ecosystems are an important biodiversity environment resource for many species. Forests and trees play a key role in food production and have a relevant impact also on nutrition. Plants and animals in the forests enable nutrient-rich food sources to be available, and can provide important contributions to dietary diversity, quality, and quantity.
