Collana	OAPEN Open Research Library (ORL)
Disciplina	363.69
Soggetti	Historic sites - Conservation and restoration Architecture - Conservation and restoration
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Starting from the title of one of the most significant chapters of Leonardo's Book of Painting, we want to focus on the media, or rather on the methodologies and narrative, descriptive and graphic techniques adopted, in modern and contemporary history, as 'speakers' of the landscape image, and of the potential models that derive from it for the purpose of enhancing the historical landscape heritage.
