Autore	Sharp Lesley Alexandra
Titolo	Bodies, commodities, and biotechnologies [[electronic resource] ] : death, mourning, and scientific desire in the realm of human organ transfer / / Lesley A. Sharp
Pubbl/distr/stampa	New York, : Columbia University Press, c2007
ISBN	0-231-51098-5
Descrizione fisica	1 online resource (89 p.)
Collana	University seminars/Leonard Hastings Schoff memorial lectures
Disciplina	306.4
Soggetti	Organs (Anatomy) - Social aspects - United States Transplantation of organs, tissues, etc - Social aspects - United States Human body - Social aspects - United States Human body - Symbolic aspects - United States Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [117]-124) and index.
Nota di contenuto	Cover; Half title; University Seminars; Title; Copyright; Dedication; Contents; List of Illustrations; Acknowledgments; Introduction; 1. The Good Death: Managing and Memorializing the Dead; 2. Body Commodities: The Medical Value of the Human Body and Its Parts; 3. Human, Monkey, Machine: The Brave New World of Human Hybridity; Epilogue: The Future of the Body Transformed; Notes; References Cited; Index
Sommario/riassunto	The human body defines a lucrative site of reusable parts, ranging from whole organs to minuscule and even microscopic tissues. Although the medical practices that enable the transfer of parts from one body to another most certainly relieve suffering and extend lives, they have also irrevocably altered perceptions of the cultural values assigned to the body. In Bodies, Commodities, and Biotechnologies, Lesley A. Sharp probes the ideological assumptions underlying the transfer of body parts, the social significance of donors' deaths, and the medico-scientific desires surrounding complex forms o

Sommario/riassunto	<p>Reading fluency has been identified as a key component of proficient reading. Research has consistently demonstrated significant and substantial correlations between reading fluency and overall reading achievement. Despite the great potential for fluency to have a significant outcome on students' reading achievement, it continues to be not well understood by teachers, school administrators and policy makers. The chapters in this volume examine reading fluency from a variety of perspectives. The initial chapter sketches the history of fluency as a literacy instruction component. Following chapters examine recent studies and approaches to reading fluency, followed by chapters that explore actual fluency instruction models and the impact of fluency instruction. Assessment of reading fluency is critical for monitoring progress and identifying students in need of intervention. Two articles on assessment, one focused on word recognition and the other on prosody, expand our understanding of fluency measurement. Finally, a study from Turkey explores the relationship of various reading competencies, including fluency, in an integrated model of reading. Our hope for this volume is that it may spark a renewed interest in research into reading fluency and fluency instruction and move toward making fluency instruction an even more integral part of all literacy instruction.</p>

### Sommario/riassunto

By revisiting the past hundred years of shared Palestinian and Jewish-Israeli history, Baruch Kimmerling reveals surprising relations of influence between a stateless indigenous society and the settler-immigrants who would later form the state of Israel. Shattering our assumptions about these two seemingly irreconcilable cultures, Kimmerling composes a sophisticated portrait of one side's behavior and characteristics and the way in which they irrevocably shaped those of the other. Kimmerling focuses on the clashes, tensions, and complementarities that link Jewish, Palestinian, and Israeli identities. He explores the phenomena of reciprocal relationships between Jewish and Arab communities in mandatory Palestine, relations between state and society in Israel, patterns of militarism, the problems of jurisdiction in an immigrant-settler society, and the ongoing struggle of Israel to achieve legitimacy as both a Jewish and a democratic state. By merging Israeli and Jewish studies with a vast body of scholarship on Palestinians and the Middle East, Kimmerling introduces a unique conceptual framework for analyzing the cultural, political, and material overlap of both societies. A must read for those concerned with Israel and the relations between Jews and Arabs, *Clash of Identities* is a provocative exploration of the ever-evolving, always-contending identities available to Israelis and Palestinians and the fascinating contexts in which they take form.
