                        Frontiers Research Topics are very popular trademarks of the Frontiers
                        Journals Series: they are collections of at least ten articles, all centered
                        on a particular subject. With their unique mix of varied contributions
                        from Original Research to Review Articles, Frontiers Research Topics
                        unify the most influential researchers, the latest key findings and
                        historical advances in a hot research area! Find out more on how to
                        host your own Frontiers Research Topic or contribute to one as an
