

1. Record Nr.	UNINA9911006689303321
Autore	Hamad Munir
Titolo	AutoCAD 2025 Beginning and Intermediate
Pubbl/distr/stampa	Bloomfield : , : Mercury Learning & Information, , 2024 ©2024
ISBN	9781501520464 9781501523168
Edizione	[1st ed.]
Descrizione fisica	1 online resource (743 pages)
Soggetti	Computer-aided design CADS (Computer system)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cover -- Title -- Copyright -- Contents -- Preface -- About the Book -- Chapter 1 AutoCAD 2025 Basics -- 1.1 Starting AutoCAD -- 1.2 AutoCAD 2025 Interface -- 1.2.1 Application Menu -- 1.2.2 Quick Access Toolbar -- 1.2.3 Ribbons -- 1.2.4 InfoCenter -- 1.2.5 Command Window -- 1.2.6 Graphical Area -- 1.2.7 Status Bar -- 1.2.8 Start Tab -- 1.3 AutoCAD Defaults -- 1.4 What is My Drawing Unit? -- 1.5 Create a New AutoCAD Drawing -- 1.6 Open an Existing AutoCAD Drawing -- 1.6.1 File Tab -- 1.7 Closing Drawing Files -- 1.8 Undo and Redo Commands -- 1.8.1 Undo Command -- 1.8.2 Redo Command -- Practice 1-1 AutoCad Basics -- Chapter Review -- Chapter Review Answers -- Chapter 2 Precise Drafting AutoCAD 2025 -- 2.1 Drafting Priorities -- 2.2 Drawing Lines Using Line Command -- 2.3 What is Dynamic Input in AutoCAD? -- 2.3.1 Example for Showing Prompts -- 2.3.2 Example for Specifying Lengths and Angles -- Practice 2-1 Drawing Lines Using Dynamic Input -- 2.4 Exact Angles (Ortho vs. Polar Tracking) -- 2.4.1 Increment Angle -- 2.4.2 Additional Angles -- 2.4.3 Polar Angle Measurement -- Practice 2-2 Exact Angles -- 2.5 Precise Drafting Using Object SNAP -- 2.5.1 Activating Running OSNAPs -- 2.5.2 OSNAP Override -- Practice 2-3 Object Snap (OSNAP) -- 2.6 Drawing Circles Using Circle Command -- 2.7 Drawing Circular Arcs Using Arc Command -- 2.8 Object Snaps Related to Circles and Arcs

-- 2.9 Using Object SNAP Tracking with OSNAP -- Practice 2-4a  
Drawing Using OSNAP and OTRACK -- Practice 2-4b Drawing Using  
OSNAP and OTRACK -- 2.10 Drawing Lines and Arcs Using Polyline  
Command -- 2.11 Converting Polylines to Lines and Arcs, and Vice-  
Versa -- 2.11.1 Converting Polylines to Lines and Arcs -- 2.11.2  
Joining Lines and Arcs to Form a Polyline -- Practice 2-5 Drawing  
Polylines and Converting -- 2.12 Using Snap and Grid to Specify Points  
Accurately.  
2.13 Using Polar Snap -- Practice 2-6 SNAP and Grid -- Practice 2-7  
Small Project -- Chapter Review -- Chapter Review Answers -- Chapter  
3 Modifying Commands Part I -- 3.1 How to Select Objects in AutoCAD  
-- 3.1.1 Window Mode (W) -- 3.1.2 Crossing Mode (C) -- 3.1.3 Window  
Polygon Mode (WP) -- 3.1.4 Crossing Polygon Mode (CP) -- 3.1.5 Lasso  
Selection -- 3.1.6 Fence Mode (F) -- 3.1.7 Last (L), Previous (P), and All  
Modes -- 3.1.8 Other Methods to Select Objects -- 3.2 Selection  
Cycling -- 3.3 Erase Command -- Practice 3-1 Selecting Objects and  
Erase Command -- 3.4 Move Command -- 3.4.1 Nudge Functionality  
-- Practice 3-2 Moving Objects -- 3.5 Copy Command -- Practice 3-3  
Copying Objects -- 3.6 Rotate Command -- 3.6.1 Reference Option --  
Practice 3-4 Rotating Objects -- 3.7 Scale Command -- 3.7.1  
Reference Option -- Practice 3-5 Scaling Objects -- 3.8 Mirror  
Command -- Practice 3-6 Mirroring Objects -- 3.9 Stretch Command  
-- Practice 3-7 Stretching Objects -- Practice 3-8 Stretching Objects  
-- 3.10 Lengthening Objects -- 3.11 Joining Objects -- Practice 3-9  
Lengthening and Joining Objects -- 3.12 Using Grips to Edit Objects --  
3.13 Grips and Dynamic Input -- 3.14 Grips and Perpendicular and  
Tangent OSNAPs -- Practice 3-10 Using Grips to Edit Objects --  
Chapter Review -- Chapter Review Answers -- Chapter 4 Modifying  
Commands Part II -- 4.1 Introduction -- 4.2 Offsetting Objects --  
4.2.1 Offsetting Using the Offset Distance Option -- 4.2.2 Offsetting  
Using the Through Option -- 4.2.3 Using the Multiple Option --  
Practice 4-1 Offsetting Objects -- Practice 4-2 Offsetting Objects --  
4.3 Filleting Objects -- Practice 4-3 Filleting Objects -- 4.4 Chamfering  
Objects -- 4.4.1 Chamfering Using the Distance Option -- 4.4.2  
Chamfering Using Distance and Angle -- Practice 4-4 Chamfering  
Objects -- 4.5 Trimming Objects -- Practice 4-5 Trimming Objects.  
4.6 Extending Objects -- Practice 4-6 Extending Objects -- 4.7  
Array Objects - Rectangular Array -- 4.7.1 The First Step -- 4.7.2  
Using the Array Creation Context Tab -- 4.7.3 Editing a Rectangular  
Array Using Grips -- 4.7.4 Editing a Rectangular Array Using the  
Context Tab -- 4.7.5 Editing a Rectangular Array Using Quick  
Properties -- Practice 4-7 Arraying Objects Using Rectangular Array --  
4.8 Arraying Objects - Path Array -- Practice 4-8 Arraying Objects  
Using Path -- 4.9 Arraying Objects - Polar Array -- Practice 4-9  
Arraying Objects Using Polar Array -- 4.10 Break Command -- Practice  
4-10 Breaking Objects -- Chapter Review -- Chapter Review Answers  
-- Chapter 5 Layers and Inquiry Commands -- 5.1 Layers Concept in  
AutoCAD -- 5.2 Creating and Setting Layer Properties -- 5.2.1 How to  
Create a New Layer -- 5.2.2 How to Set a Color for a Layer -- 5.2.3  
How to Set the Linetype for Layers -- 5.2.4 How to Set a Lineweight for  
Layers -- 5.2.5 How to Set the Current Layer -- Practice 5-1 Creating  
and Setting Layer Properties -- 5.3 Layer Controls -- 5.3.1 Controlling  
Layer Visibility, Locking, and Plotting -- 5.3.2 Deleting and Renaming  
Layers -- 5.3.3 How to Make an Object's Layer the Current Layer --  
5.3.4 How to Undo Only Layer Actions -- 5.3.5 Moving Objects from  
One Layer to Another -- 5.4 While You Are at the Layer Properties  
Manager -- Practice 5-2 Layer Controls -- 5.5 Changing an Object's  
Layer, Quick Properties, and Properties -- 5.5.1 Reading Instantaneous

Information About an Object -- 5.5.2 How to Move an Object from a Layer to Another Layer -- 5.5.3 What is Quick Properties? -- 5.5.4 What is Properties? -- Practice 5-3 Changing Object's Layer, Quick Properties, and Properties -- 5.6 Inquiry Commands - Introduction -- 5.7 Measuring Distance -- 5.8 Inquiring Radius -- 5.9 Measuring Angle -- 5.10 Measuring Area.

5.10. 1 How to Calculate Simple Area -- 5.10.2 How to Claculate Complex Area -- 5.11 Quick Measure -- Practice 5-4 Inquiry Commands -- Practice 5-5 Inquiry Commands -- Chapter Review -- Chapter Review Answers -- Chapter 6 Blocks and Hatch -- 6.1 Why Do We Need Blocks? -- 6.2 How to Create a Block -- 6.3 How to Use (Insert) Blocks -- 6.3.1 Block Insertion Point OSNAP -- 6.3.2 Block Count -- 6.3.3 Block Replace -- Practice 6-1A Creating and Inserting Blocks -- Practice 6-1B Auto-placement and Replace -- 6.4 Exploding Blocks and Converting Them to Files -- 6.4.1 Exploding Blocks -- 6.4.2 Converting Blocks to Files -- Practice 6-2 Exploding, Converting -- 6.5 Hatching in AutoCAD -- 6.6 Hatch Command: First Step -- 6.7 Controlling Hatch Properties -- Practice 6-3A Inputting Hatch and Controlling Hatch Properties -- 6.8 Hatch Command Using Command Window -- Practice 6-3B Hatch Using Command window -- 6.9 Specifying Hatch Origin -- 6.10 Controlling Hatch Options -- 6.10.1 How to Create Associative Hatching -- 6.10.2 How to Make Your Hatch Annotative -- 6.9.3 Using Match Properties to Create -- 6.10.4 Hatching an Open Area -- 6.10.5 Creating Separate Hatches in the Same Command -- 6.10.6 Island Detection -- 6.10.7 Set Hatch Draw Order -- Practice 6-4 Hatch Origin and Options -- 6.11 Hatch Boundary -- 6.12 Editing Hatch -- Practice 6-5 Hatch Boundary and Hatch Editing -- Chapter Review -- Chapter Review Answers -- Chapter 7 Writing Text -- 7.1 Writing Text Using Single Line Text -- Practice 7-1 Creating Text Style and Single Line Text -- 7.2 Writing Text Using Multiline Text -- 7.2.1 Style Panel -- 7.2.2 Formatting Panel -- 7.2.3 Paragraph Panel -- 7.2.4 Insert Panel -- 7.2.5 Spell Check Panel -- 7.2.6 Tools Panel -- 7.2.7 Options Panel -- 7.2.8 Close Panel -- 7.2.9 Text Editor -- Practice 7-2 Writing Using Multiline Text -- 7.3 Text Editing.

7.3.1 Double-Click Text -- 7.3.2 Quick Properties and Properties -- 7.3.3 Editing Using Grips -- 7.4 Spelling Check and Find and Replace -- Practice 7-3 Editing Text -- Chapter Review -- Chapter Review Answers -- Chapter 8 Dimensions -- 8.1 What is Dimensioning in AutoCAD? -- 8.2 Dimension Types -- 8.3 How to Insert a Linear Dimension -- 8.4 How to Insert an Aligned Dimension -- 8.5 How to Insert an Angular Dimension -- Practice 8-1 Inserting Linear, Aligned, and Angular Dimensions -- 8.6 How to Insert an Arc-Length Dimension -- 8.7 How to Insert a Radius Dimension -- 8.8 How to Insert a Diameter Dimension -- Practice 8-2Inserting Arc Length, Radius, and Diameter Dimension -- 8.9 How to Insert a Jogged Dimension -- 8.10 How to Insert an Ordinate Dimension -- Practice 8-3Inserting Dimensions -- 8.11 Inserting a Series of Dimensions Using the Continue Command -- 8.12 Inserting a Series of Dimensions Using the Baseline Command -- Practice 8-4 Continue Command -- Practice 8-5 Baseline Command -- 8.13 Using the Quick Dimension Command -- 8.14 Using the Dimension Command -- 8.15 Dimension Special Layer -- 8.16 Editing a Dimension Block Using Grips -- 8.17 Editing a Dimension Block Using the Right-Click Menu -- 8.18 Editing a Dimension Block Using Quick Properties and Properties -- Practice 8-6 Quick Dimension and Editing -- Chapter Review -- Chapter Review Answers -- Chapter 9 Plotting -- 9.1 What is Model Space and What is Paper Space? -- 9.2 Introduction to Layouts -- 9.3 Steps to Create a

New Layout from Scratch -- 9.4 Steps to Create a New Layout Using a Template -- 9.5 Creating Layouts Using Copying -- Practice 9-1 Creating New Layouts -- 9.6 Creating Viewports -- 9.6.1 Adding Single Rectangular Viewports -- 9.6.2 Adding Multiple Rectangular Viewports -- 9.6.3 Adding Polygonal Viewports -- 9.6.4 Creating Viewports by Converting Existing Objects. 9.6.5 Creating Viewports by Clipping Existing Viewports.

## Sommario/riassunto

AutoCAD 2025 Beginning and Intermediate is a comprehensive guide designed for individuals seeking to learn the fundamentals and intermediate features of AutoCAD 2025, a leading design and drafting software. Authored by Munir M. Hamad, the book provides detailed instructions on using AutoCAD 2025, covering basic navigation, command usage, and precise drafting techniques. It includes practical exercises and chapter reviews to reinforce learning, making it suitable for students, educators, and professionals in engineering, architecture, and design fields. The book aims to equip users with the skills needed to effectively utilize AutoCAD for creating technical drawings and designs.

## Sommario/riassunto

Der Meyer-Struckmann-Preis für geistes- und sozialwissenschaftliche Forschung, ausgeschrieben für Deutsche Geschichte im 20. Jahrhundert, ging im Jahr 2013 an den renommierten britischen Historiker Sir Ian Kershaw. Die Stiftung ehrte mit dieser Auszeichnung, die von der Philosophischen Fakultät der Heinrich-Heine-Universität vergeben wird, das Lebenswerk Sir Ian Kershaws. Zahlreiche seiner Publikationen behandeln und deuten die Geschichte der deutschen Katastrophe im Nationalsozialismus. Kershaws Werke haben in ihren englischen Originalfassungen sowie in den deutschen Übersetzungen breite internationale Beachtung gefunden. Zum Preisträger: Sir Ian Kershaw wurde 1943 in Oldham, Lancashire, geboren. Er studierte in Liverpool und Oxford. Nach Tätigkeiten an den Universitäten Manchester, Bochum und Nottingham lehrte er bis zu seiner Emeritierung 2008 als Professor für moderne Geschichte an der Universität Sheffield. Sir Ian Kershaw ist Träger des Bundesverdienstkreuzes.
