Sommario/riassunto	The contributions thematise love to a homeland in groups and individuals who fail to conform to the dominant understanding of patriotism~this often renders them inapt patriots and they are, hence, symbolically deprived of loving their homeland. The authors thematise love for homeland(s) in im/migrants, members of ethnic and sexual minorities, mixed marriage children, anarchists and social critics and activists. The authors and the people depicted stand for understanding and practicing the so-called critical patriotism, a practice best subsumed in the phrase: "use your mind". Prispevki v knjigi tematizirajo ljubezen do domovine pri posameznikih in skupinah, ki ne ustrezajo prevladujoem pojmovanju domoljuba, zaradi esar se jim simbolno odvzame pravica do ljubezni do domovine. Avtorji obravnavajo ljubezen do domovin/e pri izseljencih, priseljencih, pripadnikih etnin in spolnih manjšin, otrocih iz mešanih zakonov, anarhistih ter družbenih kritikih in aktivistih. Tako avtorji prispevkov kot njihovi akterji se zavzemajo za razumevanje in prakticiranje kritinega domoljubja, za držo, ki jo najboljše povzemajo besede »misli s svojo glavo«.
