Education as reproduction of hegemony and its antithesis -- Chapter 11. Gramsci and labor as a foundation of hegemony -- Gramsci and labor as a foundation of hegemony -- Chapter 12. Class and Party in Gramsci -- Chapter 13. Gramsci and the emancipation of

the subaltern classes -- Chapter 14. Postscript.

Sommario/riassunto

This book outlines essential issues of Antonio Gramsci's thought, from his relationship to other political thinkers, including Rosa Luxemburg, Lenin, and Machiavelli; the development of his key conceptual categories; and the applicability of those categories in contemporary contexts. The author demonstrates how Gramsci's revolutionary strategy begins with the knowledge of the subaltern classes' common sense, and their elements of rebellion, in order to establish a dialectical relationship between intellectuals and the masses. That relationship promotes collective intellectual progress, ultimately leading to an effective philosophy of praxis, founded on labor and a new hegemony. The book demonstrates that Gramsci's thought offers possibilities for understanding the serious crises of today. Marcos Del Roio is Professor of Political Sciences at the Universidade Estadual Paulista, Brazil.
