

1. Record Nr.	UNINA9910559386403321
Autore	Nentwig Wolfgang <1953->
Titolo	All you need to know about spiders // Wolfgang Nentwig [and seven others]
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-030-90881-X
Descrizione fisica	1 online resource (245 pages)
Disciplina	595.44
Soggetti	Spiders Poisonous spiders - Venom Predation (Biology) Aranyes Predació (Biologia) Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 231-233) and index.
Nota di contenuto	Intro -- Preface -- Acknowledgements -- Contents -- Authors -- The Association for the Promotion of Spider Research -- Part I Facts on Structure and Function -- 1 Getting to Know You: A First Look at Spiders -- 1.1 Eight Legs and a Wasp Waist -- 1.2 An Armoured Skin, Old Maids and Skeletal Sensing -- 1.3 Great Legs -- 1.4 Two Groping Penises on the Face -- 1.5 Poisoners and Drinkers -- 1.6 Why Spiders Do not Eat Dumplings -- 1.7 About Blue-Blooded Starvelings and Why You can't Strangle Spiders -- 1.8 Love on and for Oneself: Why Spider Males Masturbate Before Sex -- 2 How Do Spiders See? -- 2.1 Number and Arrangement of Eyes -- 2.2 Eye Structure and Function -- 2.3 Colour Vision -- 2.4 I See Something You can't See: Polarized Light -- 2.5 Sight and Behaviour -- 3 How Do Spiders Hear, Smell, Taste and Feel? -- 3.1 Hairy Creatures with Sensitive Biosensors -- 3.2 How Spiders "Hear" -- 3.3 Spiders Are also Sentient Animals -- 3.4 Spiders Are Real Gourmets-Not Only in Their Choice of Food -- 3.5 The "Sense of Smell" of Spiders- An Ongoing Mystery -- 3.6 Damp, Dry, Warm or Cold? -- 3.7 How

Spiders Communicate with Each Other -- 4 Muscles and Hydraulics:
How Spiders Move -- 4.1 Fluid Pressure Instead of Muscle Power -- 4.2
Running -- 4.3 Jumping -- 4.4 Rolling -- 4.5 Flying -- 5 How Can
Spiders Grow Despite an Exoskeleton? -- 5.1 What is an Exoskeleton?
-- 5.2 Step-Wise Growth Thanks to Moulting -- 6 Poison Without Sting:
The Weapon of Spiders -- 6.1 Production and Function of Spider
Venom -- 6.2 Composition of Spider Venom -- 6.3 Spider Bites -- 6.4
Spider Bites in Europe -- 6.5 Spiders Poisonous to Humans Worldwide
-- 7 Silk for Many Purposes: The High-Tech Material of Spiders -- 7.1
Not Only Spiders Produce Silk -- 7.2 What Is Silk Made of? -- 7.3 How
Is Silk Produced? -- 7.4 Spinning Apparatus -- 7.5 What Do Spiders
Use Silk for? -- 7.6 Silk Types.
7.7 Adhesive Threads and Hackled Threads -- 7.8 Mechanical
Properties -- 7.9 Applications of Spider Silk -- 7.10 Artificial Spider
Silk -- 8 Just Sit and Wait? Far from It! Catching Techniques of Spiders
-- 8.1 Active Hunters-The Vagabonds and Athletes -- 8.2 Lurking
Hunters-Well Camouflaged and Patient -- 8.3 Net Builders-The
Bondage Artists -- 8.4 Orb Webs-In the Flight Path of Insects -- 8.5
Construction of the Orb Web-Genetically Programmed, Adapted
to the Situation -- 8.6 Reductions of the Orb Webs -- 8.7
Kleptoparasitism-Unwanted Guests on the Web -- 9 How Spiders Eat:
Feeding Through the Straw -- 9.1 Digestion Outside the Body -- 9.2
Absorption of Nutrients in the Body -- 9.3 Waste Disposal -- 10 Pretty
Special: Sex with Spiders -- 10.1 Search and Find -- 10.2 Courtship
Displays in Great Profusion -- 10.3 Sex in All Imaginable Positions --
10.4 Competition of the Sexes -- 10.5 Brood Care also Exists
in Spiders -- Part II We are Living in a World of Spiders -- 11 Some like
It Cold: How Spiders Survive Adverse Seasons -- 11.1 Arrested
Development in Winter -- 11.2 Adaptation to Cold and Wet Conditions
-- 11.3 Life in Winter -- 11.4 Living at the Limit -- 12 Camouflage
and Deception: How Do Spiders Defend Themselves Against Enemies?
-- 12.1 Camouflage and Deception -- 12.2 When the Specialists Come
-- 12.3 Microorganisms as Enemies -- 13 Useful or Irritating? The
Importance of Spiders in Our Environment -- 13.1 Spiders Are Versatile
Predators -- 13.2 Ecological Importance of Spiders -- 13.3 Can Spider
Deployment Be Targeted? -- 13.4 Threats to Spiders
and Countermeasures -- 13.5 What Can We Do for Spiders? -- 14 Lots
of Them and Everywhere: Species Richness of Spiders -- 14.1 Individual
Density -- 14.2 Species Numbers -- 14.3 Europe and the World -- 15
Globalization, or the Worldwide Dispersal of Spider Species -- 15.1
What Are Non-Native Species?
15.2 How Are Spiders Imported? -- 15.3 How Many Non-Native Species
Have Become Established? -- 15.4 What Are the Negative Impacts
of Non-Native Spiders? -- 16 My Home is My Castle: Common Spiders
in and Around the House -- 16.1 The Long-Bodied Cellar Spider
Pholcus phalangioides -- 16.2 The Large Woodlouse Spider *Dysdera*
crocata -- 16.3 The Common Spitting Spider *Scytodes thoracica* --
16.4 The Large House Spider *Eratigena atrica* -- 16.5 The False Wolf
Spider *Zoropsis spinimana* -- 16.6 The Yellow Sac Spider
Cheiracanthium mildei -- 16.7 The Rabbit Hutch Spider *Steatoda*
bipunctata -- 16.8 The Zebra Spider *Salticus scenicus* -- 16.9 The
Common Purse Web Spider *Atypus affinis* -- 16.10 The Wall Spider
Brigittea civica -- 17 Who's Who in the Neighbourhood: Common
Spiders in the Garden and its Surroundings -- 17.1 The Common
Forest Wolf Spider *Pardosa lugubris* -- 17.2 The Common Ground Wolf
Spider *Trochosa terricola* -- 17.3 The Common Labyrinth
Spider *Agelena labyrinthica* -- 17.4 The Nursery Web Spider *Pisaura*
mirabilis -- 17.5 The Common Crab Spider *Xysticus cristatus* -- 17.6

The Flower Crab Spider *Misumena vatia* -- 17.7 The Yellow-Legged Sun Jumper *Heliophanus flavipes* -- 17.8 The Wasp Spider *Argiope bruennichi* -- 17.9 The Garden Spider *Araneus diadematus* -- 17.10 The Bridge Spider *Larinioides sclopetarius* -- Part III Our Emotional Attitude Towards Spiders -- 18 Big Fear of Small Animals: Where Our Fear of Spiders Comes from -- 18.1 Are Spiders Dangerous? -- 18.2 Frequency of Arachnophobia -- 18.3 Symptoms of Arachnophobia -- 18.4 Causes of Arachnophobia -- 18.5 Arachnophobia is Curable -- 18.6 Other Therapeutic Approaches -- 19 Concerning a Tense Relationship: Of Humans and Spiders -- 19.1 Medieval Superstitions -- 19.2 The Alleged Toxicity of Tarantulas -- 19.3 Urban Myths-Modern Legends -- 20 Spiders as Pets? -- 20.1 Should I Invest in Exotics?. 20.2 Should I First Look Around in My Own Environment Instead? -- Appendix -- How to Identify Spiders? -- References -- Recent Reviews -- Internet Resources -- Identification Books -- Individual Works, Special Literature, Other Works -- Index.
