

1. Record Nr.	UNINA9910561294903321
Titolo	Epidemiology of injuries in sports // edited by Gian Luigi Canata and Henrique Jones
Pubbl/distr/stampa	Berlin, Germany ; ; New York, New York : , : Springer-Verlag, , [2022] ©2022
ISBN	3-662-64532-7
Descrizione fisica	1 online resource (157 pages)
Disciplina	617.1027
Soggetti	Sports medicine Sports injuries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- 1: Archery -- 1.1 Characteristics of the Sport -- 1.2 Physiological and Biomechanical Demands on Athletes -- 1.3 Epidemiology of Injuries -- 1.4 Rehabilitation and Return to Play -- 1.5 Prevention Strategies -- References -- 2: Athletics: Jumping -- 2.1 Characteristics of the Sport -- 2.2 Physiological and Biomechanical Demands on Athletes -- 2.3 Epidemiology of Injuries -- 2.4 Rehabilitation and Return to Play -- 2.5 Prevention Strategies -- References -- 3: Athletics: Long-Distance Running -- 3.1 Long-Distance Running Athlete Definition -- 3.2 Incidence and Prevalence -- 3.3 Risk Factors -- 3.4 Injury Characteristics: Location, Etiology, and Type -- 3.5 Injury Time Loss -- 3.6 Specific Injuries -- 3.7 Prevention -- References -- 4: Athletics: Sprinting -- 4.1 Introduction -- 4.2 Characteristics of Sprints -- 4.3 Physiological and Biomechanical Demands of Sprints -- 4.4 Epidemiology of Injuries in Sprints -- 4.4.1 Injuries in Sprints During the Entire Athletics Season -- 4.4.2 Injuries in Sprints During Major International Championships -- 4.4.3 Summary of the Epidemiology of Injuries in Sprints -- 4.5 Specific Injuries of Sprinters -- 4.5.1 Hamstring Muscle Injuries in Sprinters -- 4.5.2 Achilles Tendinopathy in Sprinters -- 4.5.3 Stress Fractures in Sprinters -- 4.5.4 Low Back Pain in Sprinters -- 4.6 Prevention Strategies -- References -- 5: Athletics: Throwing -- 5.1 Characteristics of the Sport -- 5.2

Physiological and Biomechanical Demands on Athletes -- 5.2.1 Hammer -- 5.2.2 Shot Put -- 5.2.3 Javelin -- 5.2.4 Discus -- 5.3 Epidemiology -- 5.4 Rehabilitation and Return to Play -- 5.5 Prevention Strategies -- References -- 6: Basketball -- 6.1 Characteristic of the Sport -- 6.1.1 Introduction -- 6.1.2 Epidemiology of Injuries in Basketball [2, 3].
6.2 Concussion [4] -- 6.3 Dental Trauma -- 6.4 Patellar Tendinopathy [5] -- 6.4.1 Epidemiology and Risk Factors -- 6.4.2 Diagnosis -- 6.4.3 Ultrasound is the Reference Exam -- 6.4.4 Treatment -- 6.4.5 Conclusion -- 6.5 Ankle and Retinacula -- 6.5.1 Anatomical Reminder -- 6.5.1.1 Topography -- 6.5.1.2 Retinacula Pathology -- The Types of Injuries -- The Different Retinacular Pathologies of the Foot and Ankle -- 6.5.1.3 Conclusion -- 6.6 Rehabilitation and Return to Play [6] -- 6.7 Prevention Strategies [7] -- References -- 7: Cycling -- 7.1 Characteristics of the Sport -- 7.2 Physiological and Biomechanical Demands on Athletes -- 7.3 Epidemiology of Injuries -- 7.4 Rehabilitation and Return to Sport -- 7.5 Prevention Strategies -- References -- 8: Extreme Sports -- 8.1 Characteristic of the Sports -- 8.2 Physiological and Biomechanical Demands on Athletes -- 8.3 Epidemiology of Injuries -- 8.4 Rehabilitation and Return to Sport -- References -- 9: Field Hockey -- 9.1 Characteristics of the Sport -- 9.2 Physiological and Biomechanical Demands on Athletes -- 9.3 Epidemiology of Injuries -- 9.4 Rehabilitation and Return to Play -- 9.5 Prevention Strategies -- References -- 10: Football -- 10.1 Introduction -- 10.1.1 Characteristics of the Sport -- 10.1.2 Physiological and Biomechanical Demands on Athletes -- 10.1.3 Risk Factors -- 10.1.4 Epidemiology of Injuries -- 10.1.5 European Championship Data -- 10.1.6 Rehabilitation and Return to Play -- 10.1.7 Preventive Strategies -- References -- 11: Youth Football -- 11.1 Characteristics of the Sport -- 11.2 Physiological and Biomechanical Demands on Athletes -- 11.3 Epidemiology of Injuries -- 11.4 Rehabilitation and Return-to-Play -- 11.5 Prevention Strategies -- 11.6 Injury Prevention Assessment -- Suggested Reading -- 12: Handball.
12.1 Characteristics of the Sport -- 12.2 Physiological and Biomechanical Demands on Athletes -- 12.3 Epidemiology of Injuries -- 12.4 Rehabilitation and Return to Play (RTP) -- 12.5 Prevention Strategies -- References -- 13: Ice Hockey -- 13.1 Characteristics of the Sport -- 13.2 Physiological and Biomechanical Demands on Athletes -- 13.3 Epidemiology of Injuries -- 13.4 Rehabilitation and Return to Play -- 13.5 Prevention Strategies -- References -- 14: Olympics -- 14.1 Introduction -- 14.2 Injury Surveillance in the Olympic Games -- 14.3 Periodic Health Evaluations -- 14.4 Translating Research into Injury Prevention Practice -- 14.5 Future Directions -- 14.6 Conclusion -- References -- 15: Formula 1 World Championship -- 15.1 Introduction -- 15.2 Characteristics of Formula 1 World Championship -- 15.3 Physiological and Biomechanical Demands of Drivers and Team Members in Formula 1 World Championship -- 15.4 Epidemiology of Injuries in the Formula 1 World Championship -- 15.4.1 Acute Injuries in Drivers and Team Members Related to 'In Competition' Accidents -- 15.4.2 Chronic Overuse Musculoskeletal Conditions in Drivers -- 15.4.3 Chronic Overuse Musculoskeletal Conditions in Team Members -- 15.5 Diagnostic Imaging in Formula 1 -- 15.5.1 Equipment and Methods -- 15.5.2 Cervical Spine Injuries -- 15.6 Rehabilitation and Return to Play -- 15.6.1 Neck Pain and Low Back Pain in Drivers -- 15.6.2 Shoulder in Drivers -- 15.6.3 Tendinopathy in Team Members -- 15.6.4 Joints Disorders in Team Members -- 15.7 Prevention Strategies -- 15.7.1

'In Season' Prevention Strategies -- 15.7.2 'In Race' Prevention Strategies -- References -- 16: Motocross -- 16.1 Characteristics of Motocross -- 16.2 Physiological and Biomechanical Demands of Motocross Riders -- 16.2.1 Incidence of Motocross Injuries. 16.2.2 Basic Rules of Injury Prevention -- 16.2.2.1 Rider Protection -- 16.3 Conclusion -- References -- 17: Rugby -- 17.1 Characteristics of the Sport -- 17.2 Physiological and Biomechanical Demands on Athletes -- 17.3 Epidemiology of Injuries -- 17.3.1 Anatomical Injury Patterns -- 17.3.2 Youth and Junior Rugby -- 17.3.3 Community Rugby -- 17.3.4 Rugby League -- 17.3.5 Wheelchair Rugby -- 17.4 Specific Rehab and Return to Play -- 17.5 Specific Aspects in Different Subpopulations -- 17.6 Prevention Strategies -- 17.7 Equipment and Protection Considerations -- 17.8 Other Health Aspects and Diseases -- 17.9 Match Rules with Medical Importance -- 17.10 Summary -- References -- 18: Skiing -- 18.1 Introduction -- 18.2 Injury Distribution -- 18.3 Serious Injuries in Skiing -- 18.4 Equipment-Related Factors -- 18.5 Competitive Versus Recreational Skiing -- 18.6 Risk Factors -- 18.7 Prevention Strategies -- References -- 19: Alpine Skiing -- 19.1 Characteristics of the Sport -- 19.2 Physiological and Biomechanical Demands on Athletes -- 19.3 Epidemiology of Injuries -- 19.4 Rehabilitation and Return to Play -- 19.5 Prevention Strategies -- References -- 20: Cross-Country Skiing -- 20.1 Characteristic of the Sport -- 20.2 Physiological and Biomechanical Demands on Athletes -- 20.3 Epidemiology of Cross-Country Skiing -- 20.4 Rehabilitation and Return to Play -- 20.4.1 MCL -- 20.4.2 Ankle Sprain -- 20.4.3 Achilles -- 20.4.4 Lower Back Pain -- 20.4.5 Medial Tibial Stress Syndrome -- 20.4.6 Hamstring -- 20.5 Prevention Strategies -- References -- 21: Tennis -- 21.1 Characteristics of the Sport -- 21.2 Physiological and Biomechanical Demands on Athletes -- 21.3 Epidemiology of Injuries -- 21.4 Specific Rehabilitation and Return to Play -- 21.5 Prevention Strategies -- References -- 22: Volleyball. 22.1 History of Volleyball -- 22.2 The Game -- 22.3 Biomechanics of Volleyball -- 22.4 Epidemiology of Volley Injuries -- 22.4.1 Prevention of Knee Injuries -- 22.5 Conclusions -- References -- 23: Water Polo -- 23.1 Characteristics of the Sport -- 23.2 Physiological and Biomechanical Demands on Athletes -- 23.3 Epidemiology of Injury -- 23.3.1 Injury Patterns -- 23.3.2 Injury Locations -- 23.3.2.1 Head -- 23.3.2.2 Upper Extremity -- 23.3.2.3 Lower Extremity -- 23.4 Treatment, Rehabilitation and Return to Play -- 23.5 Prevention Strategies -- References -- 24: Wrestling -- 24.1 Characteristics of the Sport -- 24.2 Physiological and Biomechanical Demands on Athletes -- 24.3 Epidemiology of Injuries -- 24.3.1 The Types of Wrestling Injuries -- 24.3.2 Timing and Onset -- 24.3.3 Severity -- 24.3.4 Body Regions and Parts -- 24.3.4.1 Head and Neck -- 24.3.4.2 Lower Extremity -- 24.4 Rehabilitation and Return to Play -- 24.5 Prevention Strategies -- 24.5.1 Functional Training -- 24.5.2 Equipment and Protection Considerations -- 24.5.3 Health Regulations and Pre-weigh-in Medical Examination -- 24.5.4 Diet for Wrestlers -- 24.5.5 Match Rules with Medical Importance -- References.
